

Information on Plastic or Wooden Modular Skate Park Components

Rockwall	4-5 yrs	Rhino Skate Ramps on Slab	Holes in Ramps; Parts come from Europe and takes weeks; Park shut down at least 4 times a year for weeks at a time for maintenance; upfront cost is less but each repair can cost 2,000-6,000; Transition Plates are metal and can get up to 150 degrees in Summer
Weatherford	7 yrs	Woodward Skate Ramps on Slab	Parks needs to be highly visible; occasionally components need to be readjusted for the transition plates; Transition plates can bend or shift
Burleson	6 yrs	Woodward Skate Ramps on Slab	Too Popular; Parking became an issue with the surrounding neighborhood; no fence originally; Church took over supervision for the last 3 yrs; Cut back on hours due to budget issues trying to keep up with maintenance and repair of plastic ramps; the park was vandalized when the children couldn't use the park.
Wylie	3 yrs	Solo with Slab	Ramp would come unbolting and throw off the transitions; heavily used with some small cracks; guardrails necessary to stop momentum of skaters
Rowlett	8 yrs	Rhino Skate Ramps on Slab	The park was very popular; it was located in an Old Downtown Park with less traffic at night; Vandalism became a problem; lots of maintenance and upkeep; Parts came from Europe and took a while to arrive; Closed the Park and donated the pieces to a church.
