"Dr. Alex del Carmen's work on racial profiling exemplifies the very best of the Sandra Bland Act, named after my daughter. My daughter's pledge to fight for injustice is best represented in the high quality of Dr. del Carmen's reports which include, as required by law, the data analysis, audits, findings and recommendations. I commend the agencies that work with him as it is clear that they have embraced transparency and adherence to the law."

Mansfield City Council
1200 E. Broad St.
Mansfield, TX 76063

Dear Distinguished Members of the City Council,

The Texas Racial Profiling Law was enacted by the Texas Legislature in 2001, with the intent of addressing the issue of racial profiling in policing. During the last calendar year, the Mansfield Police Department, in accordance with the law, has collected and reported traffic and motor vehicle related contact data for the purpose of identifying and addressing (if necessary) areas of concern regarding racial profiling practices. In the 2009 Texas legislative session, the Racial Profiling Law was modified, and additional requirements were implemented. Further, in 2017 the Sandra Bland Act was passed and signed into law (along with HB 3051, which introduced new racial and ethnic designations). The Sandra Bland Law currently requires that law enforcement agencies in the state collect additional data and provide a more detailed analysis. I am pleased to report that all of these requirements have been met by the Mansfield Police Department and are included in this report.

In this annual report, you will find three sections with information on motor vehicle-related contacts. In addition, when applicable, documentation is included which demonstrates the way the Mansfield Police Department has complied with the Texas Racial Profiling Law. In section one, you will find the table of contents. Section two documents compliance by the Mansfield Police Department relevant to the requirements established in the Texas Racial Profiling Law. That is, you will find documents relevant to the training of all police personnel on racial profiling prevention and the institutionalization of the compliment and complaint processes, as required by law.

Section three contains statistical data relevant to contacts (as defined by the law) which were made during motor vehicle stops that took place between 1/1/24 and 12/31/24. Further, this section includes the Tier 2 form, which is required to be submitted to TCOLE (Texas Commission on Law Enforcement) and the law enforcement agency's local governing authority by March 1 of each year. The data in this report has been fully analyzed and compared to information derived from the U.S. Census Bureau's Fair Roads Standard. The final analysis and recommendations are also included in this report.

In the last section of the report, you will find the original draft of the Texas Racial Profiling Law, SB1074, as well as the Sandra Bland Act (current law). Also in this section, a list of requirements relevant to the Racial Profiling Law, as established by TCOLE is included. The findings in this report support the Mansfield Police Department's commitment to comply with the Texas Racial Profiling Law.

Sincerely,

Alex del Carmen, Ph.D.

Public Education on Responding to Compliments and Complaints

Informing the Public on the Process of Filing a Compliment or Complaint with the Mansfield Police Department

The Texas Racial Profiling Law requires that police agencies provide information to the public regarding the manner in which to file a compliment or racial profiling complaint. In an effort to comply with this particular component, the Mansfield Police Department launched an educational campaign aimed at informing the public on issues relevant to the racial profiling complaint process.

The police department made available, in the lobby area and on its web site, information relevant to filing a compliment and complaint on a racial profiling violation by a Mansfield Police Officer. In addition, each time an officer issues a citation, ticket or warning, information on how to file a compliment or complaint is given to the individual cited. This information is in the form of a web address (including in the document issued to the citizen), which has instructions and details specifics related to the compliment or complaint processes.

It is believed that through these efforts, the community has been properly informed of the new policies and the complaint processes relevant to racial profiling.

All Mansfield Police Officers have been instructed, as specified in the Texas Racial Profiling Law, to adhere to all Texas Commission on Law Enforcement (TCOLE) training and the Law Enforcement Management Institute of Texas (LEMIT) requirements. To date, all sworn officers of the Mansfield Police Department have completed the TCOLE basic training on racial profiling. The main outline used to train the officers of Mansfield has been included in this report.

It is important to recognize that the Chief of the Mansfield Police Department has also met the training requirements, as specified by the Texas Racial Profiling Law, in the completion of the LEMIT program on racial profiling. The satisfactory completion of the racial profiling training by the sworn personnel of the Mansfield Police Department fulfills the training requirement as specified in the Education Code (96.641) of the Texas Racial Profiling Law.

2.0 RACIAL PROFILING AND THE COMMUNITY

2.1 UNIT GOAL: The student will be able to identify logical and social arguments against racial profiling.

2.1.1 LEARNING OBJECTIVE: The student will be able to identify logical and social arguments against racial profiling.

A. There are appropriate reasons for unusual traffic stops (suspicious behavior, the officer's intuition, MOs, etc.), but police work must stop short of cultural stereotyping and racism.

B. Racial profiling would result in criminal arrests, but only because it would target all members of a race randomly – the minor benefits would be far outweighed by the distrust and anger towards law enforcement by minorities and the public as a whole.

C. Racial profiling is self-fulfilling bad logic: if you believed that minorities committed more crimes, then you might look for more minority criminals, and find them in disproportionate numbers.

D. Inappropriate traffic stops generate suspicion and antagonism towards officers and make future stops more volatile – a racially-based stop today can throw suspicion on tomorrow's legitimate stop.

E. By focusing on race, you would not only be harassing innocent citizens, but overlooking criminals of all races and backgrounds – it is a waste of law enforcement resources.

3.0 RACIAL PROFILING VERSUS REASONABLE SUSPICION

3.1 UNIT GOAL: The student will be able to identify the elements of both inappropriate and appropriate traffic stops.

3.1.1 LEARNING OBJECTIVE: The student will be able to identify elements of a racially motivated traffic stop.

- A. Most race-based complaints come from vehicle stops, often since race is used as an inappropriate substitute for drug courier profile elements
- B. "DWB" – "Driving While Black" – a nickname for the public perception that a Black person may be stopped solely because of their race (especially with the suspicion that they are a drug courier), often extended to other minority groups or activities as well ("Driving While Brown," "Flying While Black," etc.)
- C. A typical traffic stop resulting from racial profiling
1. The vehicle is stopped on the basis of a minor or contrived traffic violation which is used as a pretext for closer inspection of the vehicle, driver, and passengers
 2. The driver and passengers are questioned about things that do not relate to the traffic violation
 3. The driver and passengers are ordered out of the vehicle
 4. The officers visually check all observable parts of the vehicle
 5. The officers proceed on the assumption that drug courier work is involved by detaining the driver and passengers by the roadside
 6. The driver is asked to consent to a vehicle search – if the driver refuses, the officers use other procedures (waiting on a canine unit, criminal record checks, license-plate checks, etc.), and intimidate the driver (with the threat of detaining him/her, obtaining a warrant, etc.)

3.1.2 LEARNING OBJECTIVE: The student will be able to identify elements of a traffic stop which would constitute reasonable suspicion of drug courier activity.

- A. Drug courier profile (adapted from a profile developed by the DEA)
 1. Driver is nervous or anxious beyond the ordinary anxiety and cultural communication styles
 2. Signs of long-term driving (driver is unshaven, has empty food containers, etc.)
 3. Vehicle is rented
 4. Driver is a young male, 20-35
 5. No visible luggage, even though driver is traveling
 6. Driver was over-reckless or over-cautious in driving and responding to signals
 7. Use of air fresheners

- B. Drug courier activity indicators by themselves are usually not sufficient to justify a stop

3.1.3 LEARNING OBJECTIVE: The student will be able to identify elements of a traffic stop which could constitute reasonable suspicion of criminal activity.

- A. Thinking about the totality of circumstances in a vehicle stop

- B. Vehicle exterior
 1. Non-standard repainting (esp. on a new vehicle)
 2. Signs of hidden cargo (heavy weight in trunk, windows do not roll down, etc.)
 3. Unusual license plate suggesting a switch (dirty plate, bugs on back plate, etc.)
 4. Unusual circumstances (pulling a camper at night, kids' bikes with no kids, etc.)

- C. Pre-stop indicators
 1. Not consistent with traffic flow
 2. Driver is overly cautious, or driver/passengers repeatedly look at police car
 3. Driver begins using a car- or cell-phone when signaled to stop
 4. Unusual pull-over behavior (ignores signals, hesitates, pulls onto new street, moves objects in car, etc.)

- D. Vehicle interior
 1. Rear seat or interior panels have been opened, there are tools or spare tire, etc.
 2. Inconsistent items (anti-theft club with a rental, unexpected luggage, etc.)

Analysis and Interpretation of Data

As previously noted, in 2001, the Texas Legislature passed Senate Bill 1074, which eventually became the Texas Racial Profiling Law. This particular law came into effect on January 1, 2002, and required all police departments in Texas to collect traffic-related data and report this information to their local governing authority by March 1 of each year. This version of the law remained in place until 2009, when it was modified to include the collection and reporting of all motor vehicle-related contacts in which a citation was issued, or an arrest was made. Further, the modification to the law further requires that all police officers indicate whether or not they knew the race or ethnicity of the individuals before detaining them. In addition, it became a requirement that agencies report motor vehicle-related data to their local governing authority and to the Texas Commission on Law Enforcement (TCOLE) by March 1 of each year. The purpose in collecting and disclosing this information is to determine if police officers in any particular municipality are engaging in the practice of racially profiling minority motorists.

One of the main requirements of the law is that police departments interpret motor vehicle-related data. Even though most researchers would likely agree that it is within the confines of good practice for police departments to be accountable to the citizenry while carrying a transparent image before the community, it is in fact very difficult to determine if individual police officers are engaging in racial profiling from a review and analysis of aggregate/institutional data. In other words, it is challenging for a reputable researcher to identify specific "individual" racist behavior from aggregate-level "institutional" data on traffic or motor vehicle-related contacts.

As referenced earlier, in 2009 the Texas Legislature passed House Bill 3389, which modified the Racial Profiling Law by adding new requirements; this took effect on January 1, 2010. The changes included, but are not limited to, the re-definition of a contact to include motor vehicle-related contacts in which a citation was issued, or an arrest was made. In addition, it required police officers to indicate if they knew the race or ethnicity of the individual before detaining them. The 2009 law also required adding "Middle Eastern" to the racial and ethnic category and submitting the annual data report to TCOLE before March 1 of each year.

In 2017, the Texas Legislators passed HB 3051 which removed the Middle Eastern data requirement while standardizing the racial and ethnic categories relevant to the individuals that came in contact with police. In addition, the Sandra Bland Act (SB 1849) was passed and became law. Thus, the most significant legislative mandate (Sandra Bland Act) in Texas history regarding data requirements on law enforcement contacts became law and took effect on January 1, 2018. The Sandra Bland Act not only currently requires the extensive collection of data relevant to police motor vehicle contacts, but it also mandates for the data to be analyzed while addressing the following:

1. A comparative analysis of the information compiled (under Article 2.133):

- a. Evaluate and compare the number of motor vehicle stops, within the applicable jurisdiction, of persons who are recognized as racial or ethnic minorities and persons who are not recognized as racial or ethnic minorities;*
- b. Examine the disposition of motor vehicle stops made by officers employed by the agency, categorized according to the race or ethnicity of the affected persons, as appropriate, including any searches resulting from stops within the applicable jurisdiction;*
- c. Evaluate and compare the number of searches resulting from motor vehicle stops within the applicable jurisdiction and whether contraband or other evidence was discovered in the course of those searches.*

2. Information related to each complaint filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling.

In an effort to comply with The Texas Racial Profiling/Sandra Bland Law, the Mansfield Police Department commissioned the analysis of its 2024 contact data. Hence, two different types of data analyses were performed. The first of these involved a careful evaluation of the 2024 motor vehicle-related data. This particular analysis measured, as required by law, the number and percentage of Whites, Blacks, Hispanics or Latinos, Asians and Pacific Islanders, Alaska Natives and American Indians, who came in contact with police in the course of a motor vehicle-related contact and were either issued a ticket, citation, or warning or an arrest was made. Also included in this data were instances when a motor vehicle contact took place for an alleged violation of the law or ordinance. The Tier 2 data analysis included, but was not limited to, information relevant to the number and percentage of contacts by race/ethnicity, gender, reason for the stop, location of stop, searches while indicating the type of search performed, result of stop, basis of an arrest, and use of physical force resulting in bodily injury.

The analysis on the data performed in this report, was based on a comparison of the 2024 motor vehicle contact data with a specific baseline. When reading this particular analysis, one should consider that there is disagreement in the literature regarding the appropriate baseline to be used when analyzing motor vehicle-related contact information. Of the baseline measures available, the Mansfield Police Department agreed with our recommendation to rely in part, as a baseline measure, on the Fair Roads Standard. This particular baseline is established on data obtained through the U.S. Census Bureau (2020) relevant to the number of households that have access to vehicles while controlling for the race and ethnicity of the heads of households.

It should be noted that the census data presents challenges to any effort made at establishing a fair and accurate racial profiling analysis. That is, census data contains information on all residents of a particular community, regardless whether they are among the driving population. Further, census data, when used as a baseline of comparison, presents the challenge that it captures information related to city residents only, thus excluding individuals who may have come in contact with the Mansfield Police Department in 2024 but live outside city limits. In some jurisdictions the percentage of the population that comes in contact with the police but lives outside city limits represents a substantial volume of all motor vehicle-related contacts made in a given year.

In 2002, major civil rights groups in Texas expressed their concern and made recommendations to the effect that all police departments should rely, in their data analysis, on the Fair Roads Standard. This source contains census data specific to the number of “households” that have access to vehicles. Thus, proposing to compare “households” (which may have multiple residents and only a few vehicles) with “contacts” (an individual-based count). In essence this constitutes a comparison that may result in ecological fallacy. Despite this risk, as noted earlier, the Mansfield Police Department accepted the recommendation to utilize this form of comparison (i.e., census data relevant to households with vehicles) in an attempt to demonstrate its “good will” and “transparency” before the community. Thus, the Fair Roads Standard data obtained and used in this study is specifically relevant to the Dallas Fort-Worth (DFW) Metroplex.

Tier 2 (2024) Motor Vehicle-Related Contact Analysis

When examining the enhanced and more detailed Tier 2 data collected in 2024, it was evident that most motor vehicle-related contacts were made with Whites, followed by Blacks. Of those who came in contact with police, most tickets or citations were issued to Whites and Blacks; this was followed by Hispanics. However, in terms of written warnings, most of these were issued to Whites, followed by Blacks.

While reviewing searches and arrests, the data showed that most searches took place among Blacks. When considering all searches, most were consented by Whites and Hispanics, while most custody arrests were of Blacks. Overall, most searches resulted in contraband; of those that produced contraband, most were of Blacks; this was followed by Whites. Of the searches that did not produce contraband, most were of Blacks. Most arrests were made of Blacks. Most of the arrests that originated from a violation of the penal code involved Blacks. Overall, the police department reports one instance where force was used that resulted in bodily injury.

Comparative Analysis

A comprehensive analysis of the motor vehicle contacts made in 2024 to the census data relevant to the number of “households” in DFW who indicated in the 2020 census that they had access to vehicles, produced interesting findings. Specifically, the percentage of Whites and Asians who came in contact with police was the same or lower than the percentage of White and Asian households in DFW that claimed in the last census to have access to vehicles. The opposite was true of Blacks, Hispanics, and American Indians. That is, a higher percentage of Blacks, Hispanics, and American Indians came in contact with police than the percentage of Black, Hispanic, and American Indian households in DFW that claimed in the last census to have access to vehicles. It should be noted that the percentage difference among Hispanic and American Indian contacts with households is of less than 3%; thus, deemed by some as statistically insignificant.

The comprehensive analysis of the searches resulting in contraband shows that the most significant contraband hit rate is of Blacks. This was followed by Hispanics and Whites. This means that among all searches performed in 2024, the most significant percentage of these that resulted in contraband was among Blacks. The lowest contraband hit rate was among Asians.

Summary of Findings

As previously noted, the most recent Texas Racial Profiling Law requires that police departments perform data audits in order to validate the data being reported. Consistent with this requirement, the Mansfield Police Department has engaged del Carmen Consulting, LLC in order to perform these audits in a manner consistent with normative statistical practices. As shown in Table 6, the audit performed reveals that the data is valid and reliable. Further, as required by law, this report also includes an analysis on the searches performed. This analysis includes information on whether contraband was found as a result of the search while controlling for race/ethnicity. The search analysis demonstrates that the police department is engaging in search practices consistent with national trends in law enforcement.

While considering the findings produced as a result of this analysis, it is recommended that the Mansfield Police Department should continue to collect and evaluate additional information on motor vehicle contact data (i.e., reason for probable cause searches, contraband detected), which may prove to be useful when determining the nature of the contacts police officers are making with all individuals.

As part of this effort, the Mansfield Police Department should continue to:

- 1) Perform an independent analysis on contact and search data in the upcoming year.
- 2) Commission data audits in 2025 in order to assess data integrity; that is, to ensure that the data collected is consistent with the data being reported.

The comprehensive data analysis performed serves as evidence that the Mansfield Police Department has complied with the Texas Racial Profiling Law and all of its requirements. Further, the report demonstrates that the police department has incorporated a comprehensive racial profiling policy, currently offers information to the public on how to file a compliment or complaint, commissions quarterly data audits in order to ensure validity and reliability, collects and commissions the analysis of Tier 2 data, and ensures that the practice of racial profiling will not be accepted or tolerated.

Legislative & Administrative

TCOLE GUIDELINES

Guidelines for Compiling and Reporting Data under Senate Bill 1074

Background

Senate Bill 1074 of the 77th Legislature established requirements in the Texas Code of Criminal Procedure (TCCP) for law enforcement agencies. The Commission developed this document to assist agencies in complying with the statutory requirements.

The guidelines are written in the form of standards using a style developed from accreditation organizations including the Commission on Accreditation for Law Enforcement Agencies (CALEA). The standards provide a description of *what* must be accomplished by an agency but allows wide latitude in determining *how* the agency will achieve compliance with each applicable standard.

Each standard is composed of two parts: the standard statement and the commentary. The *standard statement* is a declarative sentence that places a clear-cut requirement, or multiple requirements, on an agency. The commentary supports the standard statement but is not binding. The commentary can serve as a prompt, as guidance to clarify the intent of the standard, or as an example of one possible way to comply with the standard.

Standard 1

Each law enforcement agency has a detailed written directive that:

- clearly defines acts that constitute racial profiling;
- strictly prohibits peace officers employed by the agency from engaging in racial profiling;
- implements a process by which an individual may file a complaint with the agency if the individual believes a peace officer employed by the agency has engaged in racial profiling with respect to the individual filing the complaint;
- provides for public education relating to the complaint process;
- requires appropriate corrective action to be taken against a peace officer employed by the agency who, after investigation, is shown to have engaged in racial profiling in violation of the agency's written racial profiling policy; and
- requires the collection of certain types of data for subsequent reporting.

Commentary

Article 2.131 of the TCCP prohibits officers from engaging in racial profiling, and article 2.132 of the TCCP now requires a written policy that contains the elements listed in this standard. The article also specifically defines a law enforcement agency as it applies to this statute as an “agency of the state, or of a county, municipality, or other political subdivision of the state, that employs peace officers who make traffic stops in the routine performance of the officers’ official duties.”

The article further defines race or ethnicity as being of “a particular descent, including Caucasian, African, Hispanic, Asian, or Native American.” The statute does not limit the required policies to just these ethnic groups.

This written policy is to be adopted and implemented no later than January 1, 2002.

Standard 2

Each peace officer who stops a motor vehicle for an alleged violation of a law or ordinance regulating traffic, or who stops a pedestrian for any suspected offense reports to the employing law enforcement agency information relating to the stop, to include:

- a physical description of each person detained, including gender and the person’s race or ethnicity, as stated by the person, or, if the person does not state a race or ethnicity, as determined by the officer’s best judgment;
- the traffic law or ordinance alleged to have been violated or the suspected offense;
- whether the officer conducted a search as a result of the stop and, if so, whether the person stopped consented to the search;
- whether any contraband was discovered in the course of the search, and the type of contraband discovered;
- whether probable cause to search existed, and the facts supporting the existence of that probable cause;
- whether the officer made an arrest as a result of the stop or the search, including a statement of the offense charged;
- the street address or approximate location of the stop; and
- whether the officer issued a warning or citation as a result of the stop, including a description of the warning or a statement of the violation charged.

Commentary

The information required by 2.133 TCCP is used to complete the agency reporting requirements found in Article 2.134. A peace officer and an agency may be exempted from this requirement under Article 2.135 TCCP Exemption for Agencies Using Video and Audio Equipment. An agency may be exempt from this reporting requirement by applying for the funds from the Department of Public Safety for video and audio equipment and the State does not supply those funds. Section 2.135 (a)(2) states, “the governing body of the county or municipality served by the law enforcement agency, in conjunction with the law enforcement agency, certifies to the Department of Public Safety, not later than the date specified by rule by the department, that the law enforcement agency needs funds or video and audio equipment for the purpose of installing video and audio equipment as described by Subsection (a) (1) (A) and the agency does not receive from the state funds for video and audio equipment sufficient, as determined by the department, for the agency to accomplish that purpose.”

Standard 3

The agency compiles the information collected under 2.132 and 2.133 and analyzes the information identified in 2.133.

Commentary

Senate Bill 1074 from the 77th Session of the Texas Legislature created requirements for law enforcement agencies to gather specific information and to report it to each county or municipality served. New sections of law were added to the Code of Criminal Procedure regarding the reporting of traffic and pedestrian stops. Detained is defined as when a person stopped is not free to leave.

Article 2.134 TCCP requires the agency to compile and provide and analysis of the information collected by peace officer employed by the agency. The report is provided to the governing body of the municipality or county no later than March 1 of each year and covers the previous calendar year.

There is data collection and reporting required based on Article 2.132 CCP (tier one) and Article 2.133 CCP (tier two).

The minimum requirements for “tier one” data for traffic stops in which a citation results are:

- 1) the race or ethnicity of individual detained (race and ethnicity as defined by the bill means of “a particular descent, including Caucasian, African, Hispanic, Asian, or Native American”);
- 2) whether a search was conducted, and if there was a search, whether it was a consent search or a probable cause search; and
- 3) whether there was a custody arrest.

The minimum requirements for reporting on “tier two” reports include traffic and pedestrian stops. Tier two data include:

- 1) the detained person’s gender and race or ethnicity;
- 2) the type of law violation suspected, e.g., hazardous traffic, non-hazardous traffic, or other criminal investigation (the Texas Department of Public Safety publishes a categorization of traffic offenses into hazardous or non-hazardous);
- 3) whether a search was conducted, and if so whether it was based on consent or probable cause;
- 4) facts supporting probable cause;
- 5) the type, if any, of contraband that was collected;
- 6) disposition of the stop, e.g., arrest, ticket, warning, or release;
- 7) location of stop; and
- 8) statement of the charge, e.g., felony, misdemeanor, or traffic.

Tier one reports are made to the governing body of each county or municipality served by the agency an annual report of information if the agency is an agency of a county, municipality, or other political subdivision of the state. Tier one and two reports are reported to the county or municipality not later than March 1 for the previous calendar year beginning March 1, 2003. Tier two reports include a comparative analysis between the race and ethnicity of persons detained to see if a differential pattern of treatment can be discerned based on the disposition of stops

including searches resulting from the stops. The reports also include information relating to each complaint filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling. An agency may be exempt from the tier two reporting requirement by applying for the funds from the Department of Public Safety for video and audio equipment and the State does not supply those funds [See 2.135 (a)(2) TCCP].

Reports should include both raw numbers and percentages for each group. Caution should be exercised in interpreting the data involving percentages because of statistical distortions caused by very small numbers in any particular category, for example, if only one American Indian is stopped and searched, that stop would not provide an accurate comparison with 200 stops among Caucasians with 100 searches. In the first case, a 100% search rate would be skewed data when compared to a 50% rate for Caucasians.

Standard 4

If a law enforcement agency has video and audio capabilities in motor vehicles regularly used for traffic stops, or audio capabilities on motorcycles regularly used to make traffic stops, the agency:

- adopts standards for reviewing and retaining audio and video documentation; and
- promptly provides a copy of the recording to a peace officer who is the subject of a complaint on written request by the officer.

Commentary

The agency should have a specific review and retention policy. Article 2.132 TCCP specifically requires that the peace officer be promptly provided with a copy of the audio or video recordings if the officer is the subject of a complaint and the officer makes a written request.

Standard 5

Agencies that do not currently have video or audio equipment must examine the feasibility of installing such equipment.

Commentary

None

Standard 6

Agencies that have video and audio recording capabilities are exempt from the reporting requirements of Article 2.134 TCCP and officers are exempt from the reporting requirements of Article 2.133 TCCP provided that:

- the equipment was in place and used during the proceeding calendar year; and
- video and audio documentation is retained for at least 90 days.

Commentary

The audio and video equipment and policy must have been in place during the previous calendar year. Audio and video documentation must be kept for at least 90 days or longer if a complaint has been filed. The documentation must be retained until the complaint is resolved. Peace officers are not exempt from the requirements under Article 2.132 TCCP.

Standard 7

Agencies have citation forms or other electronic media that comply with Section 543.202 of the Transportation Code.

Commentary

Senate Bill 1074 changed Section 543.202 of the Transportation Code requiring citations to include:

- race or ethnicity, and
- whether a search of the vehicle was conducted and whether consent for the search was obtained.

The Texas Law on Racial Profiling

S.B. No. 1074 - An Act relating to the prevention of racial profiling by certain peace officers.
BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

(d) On adoption of a policy under Subsection (b), a law enforcement agency shall examine the feasibility of installing video camera and transmitter-activated equipment in each agency law enforcement motor vehicle regularly used to make traffic stops and transmitter-activated equipment in each agency law enforcement motorcycle regularly used to make traffic stops. If a law enforcement agency installs video or audio equipment as provided by this subsection, the

policy adopted by the agency under Subsection (b) must include standards for reviewing video and audio documentation.

(b) A law enforcement agency shall compile and analyze the information contained in each report received by the agency under Article 2.133. Not later than March 1 of each year, each local law enforcement agency shall submit a report containing the information compiled

during the previous calendar year to the governing body of each county or municipality served by the agency in a manner approved by the agency.

(c) A report required under Subsection (b) must include:

(1) a comparative analysis of the information compiled under Article 2.133 to:

(2) information relating to each complaint filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling.

(d) A report required under Subsection (b) may not include identifying information about a peace officer who makes a traffic or pedestrian stop or about an individual who is stopped or arrested by a peace officer. This subsection does not affect the reporting of information required under Article 2.133(b)(1).

(e) The Commission on Law Enforcement Officer Standards and Education shall develop guidelines for compiling and reporting information as required by this article.

(f) The data collected as a result of the reporting requirements of this article shall not constitute prima facie evidence of racial profiling.

Art. 2.135. EXEMPTION FOR AGENCIES USING VIDEO AND AUDIO EQUIPMENT. (a) A peace officer is exempt from the reporting requirement under Article 2.133 and a law enforcement agency is exempt from the compilation, analysis, and reporting requirements under Article 2.134 if:

(1) during the calendar year preceding the date that a report under Article 2.134 is required to be submitted:

(A) each law enforcement motor vehicle regularly used by an officer employed by the agency to make traffic and pedestrian stops is equipped with video camera and transmitter-activated equipment and each law enforcement motorcycle regularly used to make traffic and pedestrian stops is equipped with transmitter-activated equipment; and

(B) each traffic and pedestrian stop made by an officer employed by the agency that is capable of being recorded by video and audio or audio equipment, as appropriate, is recorded by using the equipment; or

(b) Except as otherwise provided by this subsection, a law enforcement agency that is exempt from the requirements under Article 2.134 shall retain the video and audio or audio documentation of each traffic and pedestrian stop for at least 90 days after the date of the stop. If a complaint is filed with the law enforcement agency alleging that a peace officer employed by the agency has engaged in racial profiling with respect to a traffic or pedestrian stop, the agency shall retain the video and audio or audio record of the stop until final disposition of the complaint.

(c) This article does not affect the collection or reporting requirements under Article 2.132.

Art. 2.136. LIABILITY. A peace officer is not liable for damages arising from an act relating to the collection or reporting of information as required by Article 2.133 or under a policy adopted under Article 2.132.

Art. 2.137. PROVISION OF FUNDING OR EQUIPMENT.

(a) The Department of Public Safety shall adopt rules for providing funds or video and audio equipment to law enforcement agencies for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A), including specifying criteria to prioritize funding or equipment provided to law enforcement agencies. The criteria may include consideration of tax effort, financial hardship, available revenue, and budget surpluses. The criteria must give priority to:

(1) law enforcement agencies that employ peace officers whose primary duty is traffic enforcement;

(2) smaller jurisdictions; and

(3) municipal and county law enforcement agencies.

(b) The Department of Public Safety shall collaborate with an institution of higher education to identify law enforcement agencies that need funds or video and audio equipment for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A). The collaboration may include the use of a survey to assist in developing criteria to prioritize funding or equipment provided to law enforcement agencies.

(c) To receive funds or video and audio equipment from the state for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A), the governing body of a county or municipality, in conjunction with the law enforcement agency serving the county or municipality, shall certify to the Department of Public Safety that the law enforcement agency needs funds or video and audio equipment for that purpose.

(d) On receipt of funds or video and audio equipment from the state for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A), the governing body of a county or municipality, in conjunction with the law enforcement agency serving the county or municipality, shall certify to the Department of Public Safety that the law enforcement agency has installed video and audio equipment as described by Article 2.135(a)(1)(A) and is using the equipment as required by Article 2.135(a)(1).

SECTION 12. This Act takes effect September 1, 2001

President of the Senate

**MANSFIELD
POLICE DEPARTMENT
RACIAL PROFILING POLICY**

 202	MANSFIELD POLICE DEPARTMENT
	Bias-Based Policing
	Effective Date: 09-01-2017
	Approved: <u>Tracy Aaron</u> Chief of Police
	TBP: 2.01, 12.08

202.01 POLICY

The Mansfield Police Department is committed to respect for constitutional rights in the performance of our duties. Our success is based on the respect we give to our communities, and the respect members of the community observe toward law enforcement. To this end, we shall exercise our sworn duties, responsibilities, and obligations in a manner that does not discriminate on the basis of race, sex, gender, national origin, ethnicity, age, or religion. All people carry biases: in law enforcement, however, the failure to control our biases can lead to illegal arrests, searches, and detentions, thus thwarting the mission of our department. Most importantly, actions guided by bias destroy the trust and respect essential for our mission to succeed. We live and work in communities very diverse in population: respect for diversity and equitable enforcement of the law are essential to our mission.

All enforcement actions, particularly stops of individuals (for traffic and other purposes), investigative detentions, arrests, searches and seizures of persons or property, shall be based on the standards of reasonable suspicion or probable cause as required by the Fourth Amendment to the U. S. Constitution and statutory authority. In all enforcement decisions, officers shall be able to articulate specific facts, circumstances, and conclusions which support probable cause or reasonable suspicion for arrests, searches, seizures, and stops of individuals. Officers shall not stop, detain, arrest, search, or attempt to search anyone based solely upon the person's race, ethnic background, gender, sexual orientation, religion, economic status, age, cultural group, or any other identifiable group. Officers shall base all such actions on a reasonable suspicion that the person or an occupant of a vehicle committed an offense.

All departmental orders are informed and guided by this directive. Nothing in this order limits non-enforcement contacts between officers and the public.

202.02 PURPOSE

The purpose of the policy is to reaffirm the Mansfield Police Department’s commitment to unbiased policing in all its encounters between officer and any person; to reinforce procedures that serve to ensure public confidence and mutual trust through the provision of services in a fair and equitable fashion; and to protect our officers from unwarranted accusations of misconduct when they act within the dictates of departmental policy and the law.

202.03 DEFINITIONS

Most of the following terms appear in this order. In any case, these terms appear in the larger public discourse about alleged biased enforcement behavior and in other orders. These definitions are intended to facilitate on-going discussion and analysis of our enforcement practices.

- A. Bias: Prejudice or partiality which may be based on preconceived ideas, a person's upbringing, culture, experience, or education.
- B. Biased policing: Stopping, detaining, searching, or attempting to search, or using force against a person based upon his or her race, ethnic background, gender, sexual orientation, religion, economic status, age, cultural group, or any other identifiable group.
- C. Ethnicity: A cluster of characteristics which may include race but also cultural characteristics or traits which are shared by a group with a common experience or history.
- D. Gender: Unlike sex, a psychological classification based on cultural characteristics or traits.
- E. Probable cause: Facts or apparent facts and circumstances within an officer's knowledge and of which the officer had reasonable, trustworthy information to lead a reasonable person to believe that an offense has been or is being committed, and that the suspect has committed it.
- F. Race: A category of people of a particular descent, including Alaska native / American Indian, Black, White, Hispanic or Latino, and Pacific Islander. As distinct from ethnicity, race only refers to physical characteristics sufficiently distinctive to group people under a classification.
- G. Racial profiling: A law-enforcement initiated action based on an individual's race, ethnicity, or national origin rather than on the individual's behavior or on information identifying the individual as having engaged in criminal activity.
- H. Reasonable suspicion: Articulable, objective facts which lead an experienced officer to suspect that a person has committed, is committing, or may be about to commit a crime. A well-founded suspicion is based on the totality of the circumstances and does not exist unless it can be articulated. Reasonable suspicion supports a stop of a person. Courts require that stops based on reasonable suspicion be "objectively reasonable."
- I. Sex: A biological classification, male or female, based on physical and genetic characteristics.
- J. Stop: The detention of a subject for a brief period of time, based on reasonable suspicion. A stop is an investigative detention.

202.04 PROCEDURES

A. General responsibilities

1. Officers are prohibited from engaging in bias based profiling or stopping, detaining, searching, arresting, or taking any enforcement action including seizure or forfeiture activities, against any person based solely on the person's race, ethnic background, gender, sexual orientation, religion, economic status, age, cultural group, or any other identifiable group. These characteristics, however, may form part of reasonable suspicion or probable cause when officers are seeking a suspect with one or more of these attributes. (TBP 2.01)
2. Reasonable suspicion or probable cause shall form the basis for any enforcement actions or decisions. Individuals shall only be subjected to stops, seizures, or detention upon reasonable suspicion that they have committed, are committing, or are about to commit an offense. Officers shall document the elements of reasonable suspicion and probable cause in appropriate reports when applicable.
3. Officers shall observe all constitutional safeguards and shall respect the constitutional rights of all persons.
 - a. As traffic stops furnish a primary source of bias-related complaints, officers shall have a firm understanding of the warrantless searches allowed by law, particularly the use of consent. How the officer disengages from a traffic stop may be crucial to a person's perception of fairness or discrimination.
 - b. Officers shall not use the refusal or lack of cooperation to justify a search of the person or vehicle or a prolonged detention once reasonable suspicion has been dispelled.
4. All personnel shall treat everyone with the same courtesy and respect that they would have others observe to department personnel. To this end, personnel are reminded that the exercise of courtesy and respect engenders a future willingness to cooperate with law enforcement.
 - a. Personnel shall facilitate an individual's access to other governmental services whenever possible, and shall actively provide referrals to other appropriate agencies.
 - b. All personnel shall courteously accept, document, and forward to the Chief of Police or designee any complaints made by an individual against the department.
5. When feasible, personnel shall offer explanations of the reasons for enforcement actions or other decisions that bear on individual's well-being unless the explanation would undermine an investigation or jeopardize an officer's safety. When concluding an encounter, personnel shall thank him or her for cooperating.
6. When feasible, all personnel shall identify themselves by name. When a person requests the information, personnel shall give their departmental identification

number, name of the immediate supervisor, or any other reasonable information.

7. All personnel are accountable for their actions. Personnel shall justify their actions when required.

B. Supervisory responsibilities

1. Supervisors shall be held accountable for the observance of constitutional safeguards during the performance of their duties. Supervisors shall identify and correct instances of bias in the work of their subordinates.
2. Supervisors shall use the disciplinary mechanisms of the department to ensure compliance with this order and the constitutional requirements of law enforcement.
3. Supervisors shall be mindful that in accounting for the actions and performance of subordinates, supervisors are key to maintaining community trust in law enforcement. Supervisors shall continually reinforce the ethic of impartial enforcement of the laws, and shall ensure that personnel, by their actions, maintain the community's trust in law enforcement.
4. Supervisors are reminded that biased enforcement of the laws engenders not only mistrust of law enforcement, but increases safety risks to personnel. Lack of control over bias also exposes the department to liability consequences. Supervisors shall be held accountable for repeated instances of biased enforcement of their subordinates.
5. Supervisors shall ensure that all enforcement actions are duly documented per departmental policy. Supervisors shall ensure that all reports show adequate documentation of reasonable suspicion and probable cause, if applicable.
6. Supervisors shall facilitate the filing of any complaints about law enforcement service.

C. Disciplinary consequences

Actions prohibited by this order shall be cause for disciplinary action, up to and including dismissal.

D. Training (TBP 2.01)

Officers shall complete all training required by state law regarding bias based profiling.

202.05 COMPLAINTS

- A. The department shall publish literature outlining our prohibitions on bias based policing and an explanation of how to file a complaint. This literature will be made available at all police facilities in the city. The department's complaint process and its bias based profiling policy will be posted on the department's website.

- B. Complaints alleging incidents of bias based profiling will be fully investigated as described under [Policy 204 \(Internal Investigation and Disciplinary Process\)](#).
- C. Complainants will be notified of the results of the investigations when such investigation is completed.

202.06 RECORD KEEPING

- A. The department will maintain all required records on traffic stops where a citation is issued or where an arrest is made subsequent to a traffic stop pursuant to state law.
- B. The information collected above will be reported to the city council annually.
- C. The information will also be reported to TCOLE in the required format.

202.07 DATA COLLECTION & REPORTING

- A. An officer is required to collect information relating to motor vehicle stops in which a citation is issued and/or arrests made as a result of those stops. This information collected must include:

1. The race or ethnicity of the individual detained;
2. Whether a search was conducted and, if so,
3. Whether it was a consent search or a probable cause search; and

Note: It is strongly recommended that consent searches only be conducted with consent documented in writing or through the audio/video recording. If an individual indicates that they will consent to a search but refuses to sign the form, fill out the consent form anyway and indicate "consented to search but refused to sign," inserting the officer's initials and the signature of any witness in the signature block.

4. Whether the peace officer knew the race or ethnicity of the individual detained before detaining that individual; and
- B. Required by March 1st of each year, the Chief of Police shall submit a report of the information collected from the preceding calendar year to:
 1. Texas Commission on Law Enforcement
 2. The governing body of the municipality served by the agency.

The report will include:

1. a breakdown of motor vehicle stops resulting in a citation only, an arrest only, or both;
2. the race or ethnicity of the individual detained; and

3. whether the peace officer knew the race or ethnicity of the individual detained before detaining that individual; and
4. Whether a search was conducted and, if so,
5. Whether it was a consent search or a probable cause search
The data collected as a result of the reporting requirements shall not constitute prima facie evidence of racial profiling.

202.08 USE OF MOBILE VIDEO/AUDIO RECORDING EQUIPMENT

- A. The Mansfield Police Department is able to claim a Partial Exemption to Racial Profile Reporting (Tier 1) due to the following;
 1. All cars regularly used for motor vehicle stops are equipped with video camera and transmitter-activated equipment; and
 2. Each officer, normally making motor vehicle stops, is equipped with body worn audio/video recording equipment.

- B. The Mansfield Police Department shall retain the video and audio or audio documentation of each motor vehicle stop for at least two years plus 31 days after the date of the stop. These recordings are stored using in-house computer servers that are secured in the police IT area and archives saved to blu-ray disc for retrieval after memory in the servers becomes limited. The discs are stored in the secured police records area of the Department. (TBP 12.08)

- C. If a complaint is filed with this department alleging that a peace officer employed by the department has engaged in racial profiling with respect to a motor vehicle stop, the department shall retain the video and audio or audio record of the stop until final disposition of the complaint.

- D. Police supervisors in Divisions having police vehicles equipped with MVR equipment used to record motor vehicles stops will ensure officers of their Division are recording these stops. An MVR recording of each officer operating such a vehicle will be reviewed at least three times quarterly by their immediate supervisor. If there is less than three such recordings, then the supervisor will review all available MVR recordings during that period. *This does not replace the requirement to review Body Camera footage noted in General Orders PD503.10.* A log will be maintained reflecting the review of each recording and maintained by the affected Division Captains. The following information will be captured on the log:
 1. Date/Time the review conducted
 2. Supervisor conducting the review
 3. Officer being reviewed
 4. Date/Time of the motor vehicle stop(s) being reviewed

5. Number of motor vehicle stops reviewed
6. Findings related to the review

E. If the equipment used to record audio and/or video of a motor vehicle stop is malfunctioning or otherwise not operable, the officer shall report the malfunction to his/her supervisor without delay.
