<p>COMMENTS: It is understood that the material used to provide the color is mostly corn starch and food coloring with limited environmental affect. However, the City's Stormwater Permit requires that we limit discharges to storm drain infrastructure to clean water sources only.</p> <p>In order to comply with this permit the City requires the following:</p> <p>1) Sweeping, blowing or otherwise collecting the colorant from any paved surface. If the running course is located solely on grassed areas, there are no additional requirements. or</p> <p>2) Sweeping or blowing the colorant from a paved surface onto a grassed area sufficient to provide enough filtering to prevent the colorant from flowing onto a paved surface during a typical rainfall event.</p>	
*PAUL COKER (DEVELOPMENT SERVICES)	
*ERIC PETERSON (FIRE)	APPROVED
