Consider disbursement and reallocation request.

Recommendation

Hotel/Motel Sub-Committee recommends approval of this request.

Description/History

The Mansfield Historical Museum has submitted an additional supplemental request letter for Hotel/Motel Tax Funds in the amount of \$10,000 for exhibits at the Man House Museum. They have also requested to reallocate \$5,800 originally budgeted for building insurance to be used for museum exhibits.

June 5, 2019

Dear HOT Fund Committee,

The Mansfield Historical Museum is submitting a supplemental request of \$10,000 in Hotel Occupancy Tax Funds and to reallocate previously approved funds.

It was recently decided by city officials that the operation of the Man House will fall under the oversight of the Historical Museum. In order to ensure that it can open to the public when the renovations are complete, the Museum must make some purchases in FY 2019 which were not budgeted for when the Museum made its initial request last summer.

The Museum plans to submit a more thorough application for the Man House for FY 2020, but in the meantime, we need to begin purchasing period furniture and décor before the end of FY 2019. The Museum requires sufficient time to locate and purchase everything needed before the Man House is scheduled to open, which is estimated to be in December or January, in conjunction with the new dog park. While additional funds will be required to fully establish the exhibits in the Man House, we are requesting \$10,000 at this time because it is what we believe can be reasonably spent in the time remaining in this fiscal year.

The Man House consists of three main rooms in the downstairs area which will be accessible to the public. Each room will be decorated to portray the way the room was originally used by the Man family in the 1860s. The original home was a one-room log house, built in 1865. Then in 1867, two additional rooms were built to use as a parlor and bedroom. We will be creating exhibits for the museum by displaying furniture and other items, either antiques or reproductions, that are authentic to that time period. For example, in the original log house portion of the home, we need to acquire a bed, mattress, quilt, pillows, a kitchen table, chairs, cookware, dishes, utensils, rugs, furs, and other home goods that existed in an average 1865 log house. While we hope to be able to procure some of these items through loans and donations, many items will have to be purchased. Available 1860s beds costs around \$1000.

The Museum would also like to reallocate \$5,800 that was originally approved by the HOT Fund Committee for building insurance. Since the Museum is now insured through the City of Mansfield's policy, the money is no longer needed for this purpose. Instead, we would like to use the funds for the museum exhibits.

The Man House is an exciting project and an excellent example of the city's focus on the important work of historical preservation. The Museum would greatly appreciate your consideration of our request for supplemental funds and the reallocation of other existing funds.

Sincerely,

Jessica Baber

Resolution - A Resolution Authorizing the City of Mansfield, Texas, to Enter an Agreement with Neighborhood Management, Inc., to Maintain the City of Mansfield, Texas, South Pointe Public Improvement District

Requested Action

Approval of the Resolution authorizing the City of Mansfield, Texas to enter an agreement with Neighborhood Management, Inc. for the purpose of maintaining the City's South Pointe Public Improvement District.

Recommendation

Staff recommends the approval of the Resolution.

Description/History

The City established the South Pointe Public Improvement District in calendar year 2016 for the purpose of maintaining the City's improved public area and improved rights of way. The area includes substantially enhanced open space, walk ways, greenbelts, lakes and enhanced bridges which require maintenance. Since the inception of the Public Improvement District, the City has contracted for the maintenance of this public space through a Property Management Company and has worked with the Developer of South Pointe to select a Property Management Company to maintain the property. The Developer has been financially obligated to pay for the maintenance costs of the Public Improvement District until the Public Improvement District is able to pay for the costs of maintaining the area. Neighborhood Management, Inc., the Property Management Company, fee is \$1,500 per month which will be shared equally with the Home Owners Association of South Pointe.

Justification

Contracting the management for the maintenance costs of the South Pointe Public Improvement District, allows for greater efficiencies in servicing the public space in the South Pointe Public Improvement District. These efficiencies include cost savings by eliminating the need for additional City staff and allows for the Property Management Company to maintain and improve the property through contracted services. Responsibilities of the Property Management Company generally include maintaining the landscaping, maintaining the lake areas, and servicing the property owner's concerns and requests regarding the public space.

Resolution - A Resolution Approving and Authorizing the City Manager to Execute the 2nd Amendment to the 380 and Development Agreement and Assignment of a Development Agreement Between the City, the Board of Directors of the Tax Increment Financing Reinvestment Zone Number Two, and NRP Holdings LLC and Main Street Mansfield Lofts LLC and Providing an Effective Date

Requested Action

Consider Approving Resolution to Approve the 2nd amendment and Consent to Assignment to the Development Agreement with NRP Holdings, LLC and Main Street Mansfield Lofts, LLC

Recommendation

Approve and execute the 2nd Amendment and Consent to Assignment of the Development Agreement

Description/History

Currently, pursuant to that certain 380 and Development Agreement for Public Improvements to Property within Reinvestment Zone Number Two, City of Mansfield, dated as of June 29, 2015 (as amended and partially assigned, the "**380 Agreement**"), NRP Holdings LLC ("**NRP Holdings**") is responsible for Phase II of the Project. However, Main Street Lofts, L.P. ("**MSL**"), has taken title to the land upon which Phase II of the Project is located. Accordingly, the purpose of the Partial Assignment and Assumption Agreement between NRP Holdings and MSL is to assign NRP Holdings' right, title and interest in the 380 Agreement with respect to Phase II of the Project to MSL.

Additionally, the current owner of Phase I of the Project and the party responsible for Phase I of the Project under the 380 Agreement is Main Street Mansfield Lofts LLC ("**MSML**"). MSML intends to sell Phase I of the Project to WMCi Dallas VIII, LLC ("**WMCi**"). Accordingly, the purpose of the Partial Assignment and Assumption Agreement between MSML and WMCi is to assign MSML's right, title and interest in the 380 Agreement with respect to Phase I of the Project to WMCi.

As noted above, NRP Holdings partially assigned all duties, risks and obligations under the 380 Agreement to the current owner of Phase 1 of the project (MSML). In light of that assignment, the parties to the 380 Agreement provided for certain modifications and acknowledgements related to the 380 Agreement through two separate amendments.

The First Amendment confirms that MSML has fulfilled all construction obligations under the 380 Agreement with respect to Phase I, and that the City has accepted all public improvements required to be constructed therein. The First Amendment also corrected the City's construction cost reimbursement figures to reflect actual amounts reimbursed to MSML for certain Phase I improvements.

The Second Amendment acknowledges that MSML has fulfilled all obligations under the 380 Agreement relating to Phase I, construction or otherwise, except those relating to the payment of Parkland Dedication Fees. The Second Amendment set a cap on Parkland Dedication Fees

in the amount of \$157,000 in order to make the payment obligation more ascertainable. In addition, the Second Amendment assigned all obligations under the 380 Agreement relating to Phase II of the project to Main Street Lofts, L.P, the current Phase II owner. The Second Amendment provides for the City's consent to this assignment as well.

Justification

NRP has sold Phase II to MSL to assume all terms of the developers agreement for that Phase. Additionally, MSML is selling Phase I of the property to WMCi and that Phase of the development agreement is complete.

Title

Review and Consideration of a Request to Approve a Minor Modification of the Development Plan for Broad Street Medical Located at 350 Matlock Road; Brad Lehman of MJ Thomas Engineering, LLC on behalf of Sonal Desai of Matlock Crossing, LLC (ZC#10-005C)

Requested Action

To review and consider the subject request for a minor modification to an approved planned development.

Recommendation

Staff recommends approval.

Description/History

The subject property consists of approximately 1.69 acres addressed as 350 Matlock Road. It comprises Lot 1BR2, Block 1, of the Broad Street Medical planned development (PD) and is located on the east side of Matlock Road, north of Rosa's Café, west of the Cedar Bluff assisted living facility, and south of an existing medical office building.

The original development plan for this property was approved in 2010. In 2014, the PD was amended to provide for the existing 16,510 sq. ft. medical office building immediately to the north and a planned single-story 16,638 sq. ft. medical office building for the subject lot. The applicant is requesting another minor modification in order to change the previously approved plan for this lot from one single-story 16,638 sq. ft. medical office building to one single-story 5,969 sq. ft. medical/office building (B1) and one two-story 14,401 sq. ft. medical/office building (B2). It should be noted that the original development as approved in 2010 called for a two-story 50,000 sq. ft. medical office building over both this lot and the lot to the north.

Since the new plan is for two buildings with a combined increased building area and increased height for one of the buildings, staff is requesting City Council to review and consider the minor modification to the PD.

Site Plan

This lot will include a single-story 5,969 sq. ft. medical/office building (B1) on the western part of the property (oriented towards Matlock Road) and a two-story 14,401 sq. ft. medical/office building (B2) on the eastern part of the property. B1 will have a max. height of 23.67 ft. and B2 will have a max. height of 44.5 ft. Primary office entrances will be located on the west side of B1 (facing Matlock) and the south side of B2; stair entrances will be located on the north side of B2. The buildings will be served by a 95-space parking lot. The PD requires a parking ratio of 1 space per 300 sq. ft. for medical offices. The 95 spaces provided equates to a ratio of 1 parking space for every 214 sq. ft. and exceeds the required number of spaces by 27. Sidewalks will wrap around both of the buildings for easy pedestrian access and there will also be a sidewalk connection out to the sidewalk along Matlock Road.

The trash enclosure will be located in the southeastern portion of the property in close relative proximity to the trash enclosures on the properties to the east and south.

The property will connect to all three of the surrounding lots, utilizing existing driveways and street stubs. The main access points on Matlock Road are a right-in/right-out access point just to the southwest via the existing driveway to the south, as well as a full access point via the medical office property to the north.

Elevations

In this PD, building facades oriented towards a public or private street shall be constructed of at least 75% masonry or masonry-like materials. Masonry or masonry-like materials are defined in this PD to include brick, stone, textured/painted precast or tilt-wall concrete, stucco or plaster, or integral color split-face block. In addition, no one material shall comprise more than 75% of a building façade for office uses and the percentage of glass is not to exceed 60%. The applicant has provided elevations showing buildings that include a mix of brick, stone, and stucco, accented by metal fascia and awnings. The buildings include varied wall heights and a series of wall plane recesses and projections. Soldier courses and cast stone moldings separate building materials vertically and the buildings include windows on all elevations; glass is limited to 17.23% on the one-story building and 22.09% on the two-story building. The elevations meet the architectural requirements of the PD. However, staff notes that the building labels do not align with the Site Plan and will need to be corrected.

Landscape Plan

The Landscape Plan includes a mixture of red oak and cedar elm trees in the landscape setback along Matlock Road, shrubs to screen the parking lot from Matlock, and a mix of live oak, red oak, cedar elm, and red cedar trees, as well as shrubs, in the parking lot islands. Shrubs are also planned around the trash enclosures and on the east side of the two-story building. To break up the sidewalks around the building, 11 planter boxes with junipers will be provided.

Summary and Recommendation

Overall, while the property breaks up the previously approved plan from one building into two buildings and increases the height of one of the buildings to two stories, the medical/office use remains the same and the design of the site and the planned use of the property is compatible with surrounding properties and the intent of the planned development. The two-story height is also consistent with the original plan approved in 2010. Staff recommends approval with the condition that the applicant corrects the building labels on the Elevations to match the Site Plan.

Discussion and Possible Action Regarding Improvements at Mill Valley Park

Requested Action

Discussion and Possible Action

Recommendation

Discussion and Possible Action

Description/History

In 2016, Matthew Goodwin with Goodwin and Marshall Inc. approached the Mansfield Parks and Recreation Department on behalf of the owner, Jabez Development, in regards to a proposed neighborhood park in the future Mill Valley residential development. Jabez Development proposed the dedication of the neighborhood park by a metes and bound survey of approximately 11.3 acres of land to satisfy the requirements of the Park Land Dedication Ordinance for a future park. On February 16, 2017, the MPFDC voted 6-0 to accept the land based on a clear Title Policy and Warranty Deed for the property.

The park construction has been completed and will be ready for final inspection and acceptance by the city in July 2019. The park includes a 1/4-mile looped concrete trail, fully accessible age-appropriate playgrounds with poured-in-place surfacing, picnic pavilion, benches, trash cans and dog waste stations. The developer is finishing the final turf grow-in and maintenance of the detention areas within the park.

Justification

This additional property will serve as a public neighborhood park and eventually tie into a future linear park trail in the South Pointe Development. The City and MPFDC own land in close proximity or adjacent to this property and the land donation will make a good connection point for a trail system as outlined in the 2010 adopted Parks, Recreation, Open Space and Trails Master Plan.

Title

Resolution - A Resolution Awarding the Bid to Construct the Bud Ervin Water Treatment Plant Clearwell No.4 and Lower Pressure Plane High Service Pump Station Improvements to Felix Construction Company for a Total Amount not to Exceed \$9,132,300.00

Requested Action

Consider approval of the attached resolution authorizing construction to begin immediately.

Recommendation

After careful review and consideration of all bids received, it is Staff's determination that the lowest and best bid is that of Felix Construction Company. Therefore, Staff recommends bid award by City Council Resolution to Felix Construction Company.

Description/History

The council awarded the design of this project in September of 2014. During the design and through the completion of that design, our staff has continued to evaluate timing the construction of this project. This project is driven by demands in the Bud Ervin Water Treatment Plants (BEWTP) capacity. Continued efforts in public education and communication about water conservation have helped to delay the need to construct this project. We now need to complete the construction of this project as demands on the BEWTP continue to increase with the growth in the City.

This project includes a 3.5 million gallon rectangular Clearwell that will encumber most of the remaining land at the BEWTP. Construction consists of the replacement of the smallest high service pump on the lower pressure plane pump station along with a surge tank to reduce distribution system impact from pump cycles. Included in this project is the replacement of the lower pressure plane motor and control equipment, including the main electrical switchgear.

Justification

As we sit currently at the BEWTP, we meet the minimum standards set by the state for onsite Clearwell storage at 5%. For the BEWTP to expand to 60 MGD, we must add this additional onsite storage and pumping capacity.

Alan Plummer and Associates along with City Staff, have reviewed bids and qualifications, determining Felix Construction Company to be qualified and capable of constructing this project.

Re: City of Mansfield
Bud Ervin Water Treatment Plant
Clearwell No. 4 and Lower Pressure Plane High Service Pump Station Improvements
Recommendation of Award

Dear Mr. Price,

On Wednesday, May 29, 2019, five bids from general contractors were received, opened and publicly read aloud at the City of Mansfield City Hall for the above-referenced project. The bids were as follows:

Contractor	Total Base Bid
Felix Construction Company	\$9,132,300.00
Archer Western Construction, LLC	\$9,626,300.00
Bar Constructors, Inc.	\$9,746,850.00
Gracon Construction, Inc.	\$10,848,600.00
Thalle Construction Co., Inc.	\$12,071,300.00

Felix Construction Company was the apparent low bidder with a Total Base Bid of \$9,132,300.00. The Engineer's final opinion of probable construction cost for this project was \$9,500,000.00 - \$10,000,000.00 based on final equipment manufacturer Not-to-Exceed pricing.

A phone call with CBI Bonding, Inc. confirmed Felix Construction Company is in good standing on current projects and the Bid Bond has an "A+" rating of performance. Felix Construction Company has worked on multiple projects designed by Alan Plummer Associates, Inc., and has performed well on these previous projects. We also contacted several references and they all provided positive feedback. We have reviewed their bid and it appears to be in order. Therefore, we recommend award of the Total Base Bid to Felix Construction Company in the amount of \$9,132,300.00.

Please call me if you have any questions. We look forward to working with you during construction of this project.

Sincerely,

ALAN PLUMMER ASSOCIATES, INC.
