

(I have included this in case you cannot read the small print on the original historic landmark commission application)

Request/Type of work to be done:

- Level Foundation – scope of work is included
- Replace rotted fascia boards – pictures included
- Stabilize small porch on side of the building – picture included
- Clean up existing landscape
- Paint exterior (SW 2819 Downing Slate)
- Paint exterior trim (SW 2829 Classical White)
- Move side entry door (on ramp) to be ADA compliant – remove window at end of the ramp and replace with ADA compliant door, we will then reuse the window we removed to place to the left of the door where there is currently a door. We will also remove the door to the right side of the ramp as it is also not ADA compliant. – pictures included
- Remove vinyl siding and replace with wood lapboard (3/8 in. by 5 inch horizontal layout like the Man House). There is currently particle board behind the vinyl siding – pictures included
- Repair the decorative trim along front gables - picture included
