July 31, 2018

WHEREAS, This DISTRIBUTION POLE LICENSE AGREEMENT (the "Agreement") is made by and between **ONCOR ELECTRIC DELIVERY COMPANY LLC**, a Delaware limited liability company ("Company"), and the **CITY OF MANSFIELD, TEXAS**, a municipality organized under the laws of and existing within the State of Texas ("Licensee"); and

WHEREAS, Company is a public utility company transmitting and distributing electric power to its customers, and owns or has acquired the right to use certain rights of way and easements for the construction and operation of its business, and has installed distribution poles on portions of such rights of way and easements in connection with the construction and operation of its business; and

WHEREAS, Licensee desires to attach to and thereafter maintain its Equipment (as hereinafter defined) that is attached pursuant to this Agreement on Poles (as hereinafter defined) solely for the purpose of engaging in the Permitted Use; and

WHEREAS, Company is willing to allow Licensee, pursuant to the terms and conditions of this Agreement, to attach to and thereafter maintain its Equipment on Poles solely for the purpose of allowing Licensee to engage in the Permitted Use;

NOW, THEREFORE, in consideration of the covenants, agreements and undertakings set forth below, the Parties agree as follows:

The words and phrases listed in this Section, "Definitions" shall have the meaning set forth in this Section wherever such words and phrases appear in this Agreement (or the Attachments to it) with an initial capital letter on each word.

The meanings stated in this Section shall control the meanings of all such words and phrases when so capitalized, notwithstanding the context or associations in which such words or phrases may appear in this Agreement (or the Attachments to it). Words and phrases not listed in this Section and words and phrases listed in this Section without an initial capital letter shall have the meanings necessary to achieve the intentions of the Parties as expressed in this Agreement.

This shall mean any other person or entity directly or indirectly controlling or controlled by, or under the direct or indirect common control with, a specified person or entity.

This word shall mean this Distribution Pole License Agreement.

This phrase shall mean the individuals identified on Attachment A to this Agreement and any replacements for them made pursuant to the procedures prescribed in the Section entitled "Replacement of Authorized Representatives".

This shall mean any and all claims, losses, expenses, damages, demands, judgments, attorneys' fees, causes of action, suits and liability, in tort, warranty, contract, or any other basis, and of every

**SECTION 2. COMPANY'S
GRANT OF PRIVILEGE TO
LICENSEE TO ATTACH,
MAINTAIN, REPLACE,
RELOCATE, REPAIR AND
MODIFY EQUIPMENT ON
POLES**

Subject to the provisions of this Agreement, Licensee shall be permitted to attach Equipment to, and thereafter maintain, replace, relocate, repair, or modify its Equipment on, Poles, solely for the purpose of engaging in the Permitted Use.

Licensee shall not attach Equipment on any Company equipment or facilities other than Poles, including, without limitation, any portion of Company's underground duct system.

Licensee shall exercise its license under this Agreement solely to engage in the Permitted Use, in accordance with the terms of this Agreement and any applicable franchises and/or permits needed to operate its Equipment and engage in the Permitted Use. Licensee shall not lease or sublet the Equipment, including, without limitation, dark fiber, to a third party, or otherwise allow a third party to attach its equipment to Licensee's Equipment; provided, however, that Licensee may allow third parties to use the Equipment on Licensee's behalf, but

only in furtherance of Licensee engaging in the Permitted Use.

Further, in the event that Licensee's Equipment requires the supply or provision of electric power, Licensee shall be solely responsible for separately arranging for such power with its retail electric provider.

Nothing in this Agreement shall be construed as requiring Company to give Licensee permission to use any particular Pole or to allow Licensee to continue to use any particular Pole after Licensee has received Company's permission to do so.

Company may refuse Licensee permission to use any Pole, or may, as provided for in this Agreement, require Licensee to replace, relocate, modify, remove or perform other work with respect to Licensee's Equipment on any Pole.

No use, however extended, of Poles under this Agreement shall create or vest in Licensee any ownership or property right in them, but Licensee's rights in such Poles shall be and remain a mere license terminable at any time as provided herein.

Nothing in this Agreement shall be construed to compel Company to maintain any Pole for any period of time.

2.3 Rights of Pole Use

2.4 No Ownership of Poles

SECTION 3. FRANCHISES, LICENSES AND RIGHTS OF WAY

Licensee represents and warrants that:

(a) it has obtained, or prior to undertaking any construction or other work by which it contacts Company's property it will obtain, all legally required franchises, licenses, waivers, consents, approvals, easements, rights of way and permits needed to construct and operate its Equipment and engage in the Permitted Use;

(b) it shall use its best efforts to maintain such franchises, licenses, waivers, consents, approvals, easements, rights of way and permits in full force and effect throughout the term of this Agreement;

(c) it shall comply with such franchises, licenses, waivers, consents, approvals, easements, rights of way and permits in connection with engaging in the Permitted Use; and

(d) it shall promptly notify Company in writing of any change in the status of such franchises, licenses, waivers, consents, approvals, easements, rights of way and permits.

Upon Company's request, Licensee shall promptly deliver to Company documentation satisfactory to Company, evidencing that all such franchises, licenses, waivers, consents, approvals, easements, rights of way and permits have been obtained.

3.1 Licensee's Required Approvals and Rights of Way

Company shall not be required to obtain any additional license, waiver, consent, easement, right of way or permit in connection with this Agreement; provided, however, upon Licensee's request, Company may provide such assistance as Company deems appropriate to Licensee, in furtherance of obtaining any such license, waiver, consent, easement, right of way or permit, that Licensee may

need in order to engage in the Permitted Use.

Licensee shall reimburse Company for any expenses reasonably incurred by Company in providing such assistance. All costs of obtaining such additional licenses, waivers, consents, easements, rights of way or permits needed by Licensee will be borne by Licensee.

COMPANY MAKES NO REPRESENTATION OR WARRANTY OF ANY NATURE THAT ITS EXISTING OR FUTURE RIGHTS OF WAY, EASEMENTS OR OTHER PROPERTY RIGHTS, PRIVATE OR PUBLIC, WERE, ARE, OR WILL BE SUFFICIENT TO PERMIT THE ATTACHMENT, MAINTENANCE, REPLACEMENT, RELOCATION, REPAIR, MODIFICATION OR REMOVAL OF EQUIPMENT ON OR BETWEEN ANY POLES. FURTHER, COMPANY MAKES NO REPRESENTATION OR WARRANTY OF ANY NATURE WITH RESPECT TO THE CONDITION OR FITNESS FOR A PARTICULAR PURPOSE OR USE OF ANY POLE OR POLES OR ANY OF ITS OTHER REAL OR PERSONAL PROPERTY WHICH LICENSEE MAY USE. LICENSEE CONFIRMS THAT IT HAS NOT IN THE PAST RELIED, IT IS NOT PRESENTLY RELYING, AND IT WILL NOT IN THE FUTURE RELY, ON ANY REPRESENTATION OR WARRANTY OF COMPANY CONCERNING: (A) COMPANY'S EXISTING OR FUTURE RIGHTS OF WAY, EASEMENTS OR OTHER PROPERTY RIGHTS, PUBLIC OR PRIVATE, OR (B) THE CONDITION OR FITNESS FOR A PARTICULAR PURPOSE OR USE OF ANY POLE OR POLES OR ANY OTHER REAL OR PERSONAL PROPERTY OR PROPERTY RIGHT OF COMPANY.

3.3 NO WARRANTIES AS TO COMPANY'S RIGHTS OF WAY

SECTION 4. ATTACHMENT, REPLACEMENT, RELOCATION AND MODIFICATION OF EQUIPMENT

Throughout the term of this Agreement, Licensee may designate a Pole or Poles on which it desires to attach, replace, relocate or modify any Equipment. For purposes of this requirement, modification of Equipment shall include, without limitation, any Overlashing, on or undertaken with respect to that Equipment or the equipment of any third party.

4.1 Permit Applications for the Attachment, Replacement, Relocation or Modification of Equipment

Each such designation shall be made by Licensee, by submitting to Company or, as appropriate, a Company Representative, at least thirty (30) days before the date when Licensee desires to begin such work, a Permit Application, in such number, manner, and format as prescribed by Company from time to time, signed by any Authorized Representative of Licensee and specifying, in the appropriate spaces thereon, the type of work Licensee desires to perform and the Pole or Poles on which such work is to be performed, and providing drawings, data and specifications necessary to review and evaluate such Permit Application.

Notwithstanding the requirements of Section 4.1, Licensee may attach a Service Drop to any Pole without first submitting a Permit Application requesting such attachment; provided, however, that Licensee shall notify Company within fifteen (15) days after Licensee makes such attachment. Licensee shall thereafter notify Company within fifteen (15) days after Licensee makes any change to a Service

4.1.1 Service Drops

Drop previously attached to any Pole, as more fully described in the Permit Application.

Within thirty (30) days of receiving any such notice, Company may, at Licensee's sole cost, inspect the Service Drop, for the purpose of confirming that such attachment is in compliance with the Standards. In the event that Company (or, as appropriate, a Company Representative) determines that such attachment is not in compliance with the Standards, Licensee shall, at its sole cost, promptly correct any condition of such attachment, as necessary to ensure that such attachment is in compliance with the Standards.

Licensee acknowledges that Company or, as appropriate, a Company Representative, shall incur various costs and expenses in reviewing and responding to each Permit Application; such costs may include, without limitation, costs incurred in connection with inspection, design, construction, attachment or removal activities, and related processes, pertaining to the Poles or Equipment identified or described in the Permit Application (the "Preparation Costs").

Company may, in its sole discretion, invoice Licensee for any Preparation Costs, at any time after Company, or a Company Representative, has either incurred such Preparation Costs, or has provided to Licensee an estimate of such Preparation Costs to be reasonably incurred. Section 10.8 notwithstanding, Licensee shall pay the full amount of such Preparation Costs to Company within thirty (30) days following its receipt of such invoice. Licensee shall pay Preparation Costs, to the extent actually incurred by Company or a Company Representative, notwithstanding Licensee's withdrawal, cancellation, or suspension of the related Permit Applications, or Company's disapproval of such Permit Applications.

In the event that Licensee fails to pay the full amount of such Preparation Costs to Company within that thirty (30) day period, Company may suspend further efforts, pertaining to its review of and response to that Permit Application, until Licensee has paid the full amount of such Preparation Costs.

Company may, upon advance written notice of at least thirty (30) days, direct Licensee to submit each Permit Application by means of such formats and electronic procedures as Company may reasonably specify, consistent with customary or accepted practices within the utility industry. Such formats and electronic procedures may include, without limitation, those prescribed by the National Joint Utilities Notification System ("NJUNS"). Licensee will thereafter submit each Permit Application by means of such formats and electronic procedures. In addition, Licensee will, to the extent directed by Company, make any other notifications or submittals, as required or contemplated by this Section 4, or by other provisions of this Agreement, by means of such formats and electronic procedures.

Licensee shall be responsible, at its sole cost and expense, for obtaining the necessary resources and capabilities to enable it to use such designated formats and electronic procedures in the manner contemplated by this Agreement.

Company shall deny, approve or conditionally approve each Permit Application for the attachment, replacement, relocation or modification of Equipment by returning one copy of it to Licensee, reflecting

All work undertaken by or on behalf of Licensee on any Poles shall be performed in accordance with the following safety and engineering standards:

(a) the National Electrical Safety Code;

(b) the rules and regulations of the Occupational Safety & Health Administration ("OSHA");

(c) other applicable laws or regulations of any governing authority or regulatory body, having jurisdiction over the subject matter of this Agreement; and

(d) Company's standards and procedures applicable to the Poles, as referred to or included in the website referenced in Section 1.12, which are reasonably in furtherance of and not expressly inconsistent with the other engineering and safety standards referenced above.

Such engineering and safety laws, regulations, and standards, as described in subsections (a) through (d) above, both as effective on the Effective Date of this Agreement and as may be hereafter amended from time to time, are hereinafter collectively referred to as the "Standards". No approval or other response to a Permit Application shall constitute a guarantee or representation that adequate space exists on the subject Poles for the attachment of Equipment.

Company may approve a Permit Application for the attachment, replacement, relocation or modification of Equipment attached to Poles, on the condition that Licensee modifies the Permit Application in certain respects. In such event, Company or, as appropriate, a Company Representative shall return one copy of the Permit Application to Licensee, reflecting such conditional approval and detailing the required modifications to the Permit Application and the estimated costs of making any resulting or related modification or rearrangement, whether of Equipment or existing attachments.

If Licensee is willing to assume all costs associated with such modification or rearrangement, Licensee shall return that copy of the Permit Application to Company within thirty (30) days of its receipt, signed by an Authorized Representative of Licensee and reflecting Licensee's acceptance of such costs in the appropriate spaces thereon. The copy of the Permit Application shall be accompanied by payment (payable to Company) of the amount of the estimated cost of making such modifications.

Upon receipt by Company, or by a Company Representative, of the modified Permit Application and the accompanying payment, the Permit Application, as modified, shall be deemed approved. Sections 4.2.2 and 4.2.3 are specific examples of situations in which Company may conditionally approve a Permit Application for the attachment, replacement, relocation, or modification of Equipment. Those sections shall not be construed as limiting Company's right to conditionally approve Permit Applications in other situations, or to impose other or additional conditions in the future.

If approval of a Permit Application for the attachment, replacement, relocation or modification of Equipment will require a modification or rearrangement of the attachments of Licensee, Company, Company Group, or a Joint User on any Pole, Company may approve the Permit Application on the condition that Licensee agrees to assume all costs associated with such modification or rearrangement. In such event, Company or, as appropriate, a Company Representative shall return one copy of the Permit Application to Licensee, reflecting such conditional approval and detailing the attachments that must be modified or rearranged, and the estimated cost of making the modification or rearrangement in the appropriate spaces thereon.

If Licensee is willing to assume all costs associated with such modification or rearrangement, Licensee shall return that copy of the Permit Application to Company, within thirty (30) days of its receipt, signed by an Authorized Representative and reflecting Licensee's acceptance of such costs in the appropriate spaces thereon.

The copy of the Permit Application shall be accompanied by payment (payable to Company) of the amount of the estimated cost of making such modification or rearrangement. Upon receipt by Company, or by a Company Representative, of the modified Permit Application, the Permit Application, as modified, shall be deemed approved.

If approval of a Permit Application for the attachment, replacement, relocation or modification of Equipment will require the replacement of one or more Poles to accommodate the attachments of Licensee, Company Group, and any Joint Users, Company may approve the Permit Application on the condition that Licensee agrees to assume all costs associated with the replacement of the existing Poles with new poles sufficient to accommodate the attachments of Licensee, Company Group, and any Joint Users. In such event, Company shall return a copy of the Permit Application to Licensee, reflecting such conditional approval and specifying the conditions for approval in the appropriate spaces thereon.

If Licensee is willing to assume all costs associated with such replacement, Licensee shall return that copy of the Permit Application to Company, within thirty (30) days of its receipt, signed by an Authorized Representative and reflecting Licensee's acceptance of such costs in the appropriate spaces thereon.

The copy of the Permit Application shall be accompanied by payment (payable to Company) of the amount of the estimated cost of making such replacement. Upon receipt by Company, or by a Company Representative, of the modified Permit Application, and said payment, the Permit Application, as modified, shall be deemed approved.

If Company conditionally approves a Permit Application applicable to a Pole pursuant to the provisions of Sections 4.2.2 or 4.2.3, and at or about the same time Company approves a request of a third party for use of such Pole, requiring that such Pole be replaced, or that attachments thereon be modified or rearranged to provide additional space, to provide room for the attachments of Company, Company Group, Licensee and the third party, Company shall pro rate between Licensee and the third party the costs of such modification, rearrangement or replacement.

Such costs, as prorated to Licensee, shall be deemed to be and considered part of the Preparation Costs pertaining to that Permit Application. Company shall notify Licensee of such pro ration, and such modification, rearrangement or replacement shall take place as provided for in Sections 4.2.2 or 4.2.3.

Any work undertaken on or in furtherance of Licensee's use of the Equipment, on or within any Power Space of a Pole, shall be performed exclusively by an Approved Contractor. Work performed on other portions of a Pole need not be performed by an Approved Contractor.

Licensee shall pay all costs and expenses incurred by such Approved Contractor in performing such work, and, in addition, shall reimburse Company for its costs reasonably incurred in furtherance of: (a) providing any material or equipment to the Approved Contractor, for use or inclusion on a Pole as part of the work; and (b) any required engineering assessment or other technical support provided by Company.

Licensee shall provide fifteen (15) days prior written notice to Company of each occasion on which Licensee shall perform any activity within the Power Space.

Licensee shall limit its submission of Permit Applications for the attachment, replacement, relocation or modification of Equipment to Company so as to allow Company to respond to them in an orderly and timely fashion. In particular, and except as may be otherwise expressly agreed to by Company, Licensee shall, within any thirty (30) day period, submit no more than ten (10) Permit Applications, collectively requesting a total of no more than one hundred twenty (120) attachments to the Poles. Company shall use reasonable efforts to respond to each Permit Application within thirty (30) days of its submission.

If Licensee submits more than one such Permit Application at the same time or submits additional Permit Applications during the pendency of another such Permit Application, Licensee shall designate, in writing, an order of priority for their review by Company. In the absence of such a designation, Company shall review them in the order of their submission.

Licensee may, with Company's prior express, written consent, submit Permit Applications that exceed the quantity limitations specified above, for either Permit Applications or attachments.

Company shall not unreasonably withhold its consent to such submittals, provided that the Parties shall first agree to a reasonable period of time, in excess of thirty (30) days, during which Company may review and respond to such submittals.

If Licensee desires to locate Equipment on any right of way, easement or other property right of Company on which no Poles or an insufficient number of Poles are located, Licensee shall so notify Company. Within a reasonable time after Company's receipt of such notice, the Parties shall commence good faith negotiations to determine the locations of Poles that will meet the present or anticipated future service requirements of both Company and

Licensee.

At its option, Company may install the necessary Poles, and Licensee shall pay all of the costs associated with their installation. Notwithstanding such payment, such Poles shall be owned by Company and Licensee shall not acquire any ownership or property interest in them.

Except as permitted by Sections 4.7 and 7.1, in the event Licensee attaches, replaces, relocates or modifies Equipment on one or more Poles without first obtaining Company's approval of a Permit Application for such work, Licensee shall pay Company as a processing charge, upon receipt of an invoice therefore and in addition to any unpaid rental due for such Equipment (together with interest applied to such unpaid rental, calculated in accordance with Section 10.8) and any other expenses or costs incurred by Company on account of such work, fifty dollars (\$50.00) for each such attachment, replacement, relocation or modification.

In the event that the time of any such unauthorized work cannot be determined, such work shall be deemed to have occurred on the date succeeding the day on which the last physical inspection was made in accordance with Section 10.6; provided, however, that, with respect to any such unauthorized work, Licensee shall not be obligated to pay any unpaid rental, or any such fifty dollars (\$50.00) processing charge, for or attributable to any period more than five (5) years prior to the date on which Company notifies Licensee of such unauthorized work.

At the option of and upon notice from Company, Licensee, at its sole risk and expense, shall either: (a) remove, replace, relocate or modify all or any portion of such Equipment within the time period specified in the notice; or (b) prepare and submit one or more Permit Applications for such Equipment. Licensee shall notify Company of the performance of such work within fifteen (15) days of its completion.

If Licensee fails to perform such work within the period specified in the notice, Company may, without notice or demand to Licensee, and at the sole expense of Licensee, either perform all or any portion of such work or remove all or any portion of the Equipment from such Poles.

After the approval of a Permit Application for the attachment, replacement, relocation or modification of Equipment and the completion of all work required in connection with that Permit Application (including work for which any Preparation Costs were paid and other required engineering or make-ready construction work), Licensee may, at its sole expense, consistent with that approval, attach, replace, relocate or modify the Equipment identified in the Permit Application on the Poles specified in that Permit Application, during a period of ninety (90) days from the date of its approval, but not thereafter unless a new Permit Application is submitted to, and approved by, Company, pursuant to the procedures described in this Section 4.

Notwithstanding Licensee's rights as provided for in the preceding sentence, in the event that Licensee determines that the locations, configuration, or other physical characteristics of equipment attached to such Poles (including, without limitation, equipment attached to such Poles by any third parties) are materially different from those

identified or depicted in that approved Permit Application, or if Licensee otherwise determines that it cannot complete its work, as contemplated by or approved in that Permit Application, in accordance with the Standards, then Licensee shall promptly notify Company, and shall not undertake any such work until such time as Company has authorized such work.

While performing any work identified in and approved pursuant to a Permit Application, the Licensee Party performing such work shall maintain a copy of that Permit Application at the location where such work is being performed. That copy of the Permit Application shall be made available for inspection by Company, or by Company Representatives, upon request.

Upon written notice from Company, Licensee shall, at its sole expense and within the period specified in the notice, replace, relocate or modify all or any portion of the Equipment on a Pole that Company requests in such notice. Licensee, in the exercise of its sole discretion and in accordance with the provisions of Sections 6.1, 6.5 and 8, may, instead of performing such work, remove all of the Equipment on the Pole, within the time period specified in the notice, and provided that such removal does not create a safety hazard or otherwise result in a condition of non-compliance with the Standards. Licensee may perform such work without prior notice to Company and without first submitting a Permit Application to Company; provided, however, Licensee shall notify Company of the performance of such work within fifteen (15) days of its completion.

If Licensee fails to perform such work within the period specified in the notice, Company may, without notice or demand to Licensee and at the sole expense of Licensee, either perform all or any portion of such work, or remove all or any portion of the Equipment from that Pole.

Company, in the exercise of its sole discretion and in accordance with the provisions of the Agreement, may transfer Licensee's simple, tangent attachments to a new Company Pole or relocate simple, tangent attachments as needed on an existing Pole, provided that such work does not create a safety hazard. The parties agree that Company may perform such work without prior notice to Licensee, and shall notify Licensee of the performance of such work within fifteen (15) days of its completion, and request inspection by Licensee of said work for Standards compliance. Company shall invoice Licensee seventy-five Dollars (\$75.00) per transfer for all transfers performed on a monthly basis, with payment due within thirty (30) days of receipt.

At Company's discretion, Company may increase or decrease said transfer price from time to time upon sixty (60) days' notice to Licensee. For and with respect to Equipment located within the Power Space, such work shall continue to be performed exclusively by an Approved Contractor.

Licensee may communicate in writing to Company that it does not wish to participate in the transfer program described in the preceding paragraph, or that it does not wish for Company to make a specific category or type of transfer or relocation upon Licensee's behalf.

Licensee shall notify Company before it begins any work authorized by a Permit Application, approved by Company pursuant to the

procedures prescribed by this Section 4; such notice shall include, without limitation, the date on which Licensee anticipates beginning that work. Company may have a representative present during all or any portion of such work.

Licensee shall notify Company of the attachment, replacement, relocation or modification of Equipment on any Pole within fifteen (15) days of the completion of such work. The notice shall identify the nature of the work and the Equipment and Poles involved. Company may inspect all or any portion of such work at any time after its completion, for the purpose of:

- (a) initially evaluating the work, to determine if it was performed in accordance with the Permit Application; and
- (b) subsequently evaluating any follow-up or "punch list" work performed by Licensee, reasonably determined to be necessary during the initial evaluation.

Licensee shall reimburse Company or, as appropriate, Company Representatives, for all expenses incurred by Company or, as appropriate, Company Representatives, in connection with such entities' presence at or inspection of such work, or for all expenses otherwise incurred by Company or Company Representatives in completing the post-work evaluations described above.

Except as otherwise expressly authorized in writing by Company's designated representative, Licensee shall not attach any Equipment to any portions of a Pole consisting of:

- (a) guy wires or anchor rods; or
- (b) cross-arms or brackets.

In addition, when making attachments to any non-wood Poles, Licensee shall comply with any applicable specialized attachment methods, as prescribed in the Standards or otherwise specified by Company.

At such time as any Equipment is attached to a Pole, Licensee shall attach or otherwise securely affix to that Equipment an identification tag, readable from ground level beneath the Pole that identifies such Equipment as belonging to Licensee and contains an emergency phone number at which Licensee's Authorized Representative may be contacted.

The identification tag and required attachment hardware shall be provided by the Licensee. Licensee shall not attach any other identification tag to its Equipment, attached to any Pole, without the prior written consent of Company's designated representative. Licensee shall attach or otherwise affix the identification tag to its Equipment, attached to any Pole, as close to that Pole as is practicable, consistent with the Standards.

As part of its routine and periodic maintenance of its Equipment, and throughout the term of this Agreement, Licensee will ensure that the identification tags remain securely attached or otherwise affixed to that Equipment, including any Equipment which may have been previously attached to a Pole without an identification tag. In the event that Licensee determines that any of its Equipment, attached to any Pole, is no longer tagged, Licensee shall thereafter promptly attach to

that Equipment a replacement identification tag.

In addition to and apart from the requirements provided for above in this Section 4.10, Licensee shall, with respect to its Equipment, comply with any other tagging, labeling, or other identification requirements, as may be imposed by any governmental entities.

Licensee shall, at its sole expense, maintain all Equipment on Poles in a safe condition and in thorough repair (including, without limitation, in compliance with the Standards). Licensee may perform maintenance and repair work on such Equipment without giving prior notice to, or obtaining the prior approval of, Company.

If Licensee fails to maintain any such Equipment in a safe condition and in thorough repair, Company may, in its sole discretion, without notice or demand to Licensee and at the sole expense of Licensee, perform such repairs or maintenance as it deems necessary to restore that Equipment to a safe condition and in thorough repair.

As part of its maintenance work, Licensee shall promptly remove, from the vicinity of any Pole, any debris (including, without limitation, wood chips or cut limbs) resulting from Licensee's maintenance or repair of its Equipment. Licensee's right to maintain and repair its Equipment, as provided for in this Section 5.1, shall not extend to or include the attachment or other positioning of new Equipment, or the placement of new facilities to upgrade or increase the capacity of Licensee's existing Equipment, or any Overlashing, of or pertaining to existing Equipment.

At an interval no more frequent than once every twelve (12) months, Company may inspect all or any portion of the Equipment on any Pole, for the purpose of determining whether such Equipment is in a safe condition and in thorough repair (including, without limitation, in compliance with the Standards).

Upon notice from Company, Licensee shall, at its sole expense and within such reasonable period as may be specified in the notice, perform any repair or maintenance work, relating to the Equipment on any Pole specified in such notice, as necessary to ensure that such Equipment is in a safe condition and in thorough repair. Licensee shall notify Company of the performance of such work within fifteen (15) days of its completion.

If Licensee fails to perform such work, Company may, without notice or demand to Licensee, and at the sole expense of Licensee, either perform all or any portion of such necessary work, or remove all or any portion of the Equipment from that Pole.

Company's actions and decisions in either performing or choosing not to perform such inspections shall not operate to relieve Licensee of any responsibility, obligation, or liability Licensee may have pursuant to this Agreement.

or more of Licensee's attachments of Equipment to Poles is not in compliance with the Standards or, in Company's reasonable judgment, otherwise presents a safety hazard, Company may, at Licensee's expense, inspect all or any portion of Licensee's other Equipment on any Pole, for the purpose of determining whether such Equipment is in a safe condition and in thorough repair (including, without limitation, in compliance with the Standards).

Equipment by
Company

Upon notice from Company, Licensee shall, at its sole expense and within such reasonable period as may be specified in the notice, perform any repair or maintenance work, relating to the Equipment on any Pole specified in such notice, as necessary to ensure that such Equipment is in a safe condition and in thorough repair. Licensee shall notify Company of the performance of such work within fifteen (15) days of its completion.

If Licensee fails to perform such work, Company may, without notice or demand to Licensee, and at the sole expense of Licensee, either perform all or any portion of such necessary work or remove all or any portion of the Equipment from that Pole.

Company's actions and decisions in either performing or choosing not to perform such inspections shall not operate to relieve Licensee of any responsibility, obligation, or liability Licensee may have pursuant to this Agreement.

SECTION 6. REMOVAL OF EQUIPMENT

Licensee, in the exercise of its sole discretion, may remove any Equipment on any Pole, without prior notice to or the prior approval of Company; provided, however, that Licensee shall submit a Permit Application pertaining to such completed work, pursuant to Section 6.5.

6.1 Removal of
Equipment by
Licensee

If Company determines that such removal or related work performed by Licensee resulted in a safety hazard (including, without limitation, a condition of non-compliance with the Standards) then Licensee shall, at its sole expense and within such reasonable period as may be specified in the notice, replace such Equipment or perform any other corrective action, as necessary to correct that safety hazard or other condition of non-compliance. Licensee shall notify Company of the performance of such work within fifteen (15) days of its completion.

If Licensee fails to perform such work within the period specified in the notice, Company may, without notice or demand to Licensee and at the sole expense of Licensee, perform all or any portion of such work.

In the event that Licensee either:

(a) discontinues its use of any Equipment for purposes of the Permitted Use; or

(b) does not use any Equipment, for purposes of the Permitted Use, for any consecutive period of one-hundred eighty (180) days,

then Licensee shall, at its sole expense and within thirty (30) days of either such occurrence, remove that Equipment from any Pole.

| |
|--|
| DISTRIBUTION POLE LICENSE AGREEMENT |
|--|

The Overlapping of any Equipment shall not constitute use of that Equipment, for purposes of this paragraph.

Upon notice from Company, Licensee shall, at its sole expense, remove all of the Equipment on any Pole, which Company is abandoning, or otherwise discontinuing its use of for purposes of providing electric utility service (including, without limitation, discontinuance due to Company being required to relocate its facilities to underground locations).

Licensee shall remove all such Equipment within thirty (30) days of receiving such notice.

In the event that Company contracts to sell or sells a Pole on which Equipment is attached, Company shall notify Licensee of such fact. Unless Licensee obtains the permission of the new owner of the Pole to maintain its Equipment on the Pole, Licensee shall, at its sole expense, remove the Equipment from that Pole within the time period specified in such notice.

Licensee shall, at its sole expense, remove all of the Equipment on all Poles prior to the end of the term of this Agreement (as provided for in Section 9) or within thirty (30) days of receiving notice of Company's intent to terminate this Agreement for other reasons, as expressly provided for in this Agreement (including, without limitation, pursuant to Section 11).

Whenever Licensee removes any Equipment from a Pole, it shall submit to Company, within fifteen (15) days thereafter, a Permit Application, signed by an appropriate Authorized Representative and identifying, in the appropriate spaces thereon, the Equipment removed and the Pole from which it was removed.

In the event that Licensee fails to remove all or any portion of the Equipment on any Pole within the time period required by the provisions of this Section 6 or by other applicable provisions of this Agreement, Company may, without notice or demand to Licensee, remove such Equipment.

Such removal shall be at the sole expense of Licensee and Licensee shall pay Company, upon receipt of an invoice therefore and in addition to any expenses incurred by Company in connection with such removal, as a processing charge, fifty dollars (\$50) for each Pole from which Equipment is removed.

**SECTION 7.
EMERGENCIES**

In the event of an emergency pertaining to a Pole, Licensee shall, at its sole risk and expense, have the right to attach, replace, relocate or modify Equipment on any Pole without first obtaining Company's approval of a Permit Application for such work; provided, however,

7.1 Licensee's Rights in an Emergency

that before performing such work, an Authorized Representative shall obtain the oral approval of Company's designated representative, and provided further that such work is performed within the time period and under such conditions as may be reasonably specified by such representative of Company.

Any such oral approval shall be confirmed, within five (5) days of the performance of the work, by Licensee to Company in writing, identifying both the work performed and the Poles affected.

If Company determines that such emergency attachment, replacement, relocation or modification resulted in a safety hazard (including, without limitation, a condition of non-compliance with the Standards), and Company provides Licensee with a written notice of such determination, then Licensee shall, at its sole expense and within such reasonable period as may be specified in the notice, remove, replace, relocate or modify all or any portion of such Equipment, as necessary to correct that safety hazard or other condition of non-compliance. Licensee shall notify Company of the performance of such work within fifteen (15) days of its completion.

If Licensee fails to perform such work, Company may, without notice or demand to Licensee and at the sole expense of Licensee, either perform all or any portion of such work or remove the Equipment from the Pole.

In the event of an emergency, Company may, without prior notice to Licensee and at Licensee's sole expense, permanently or temporarily replace, relocate, modify, remove or perform any other work in connection with the Equipment on any Pole.

In such event, Company shall notify Licensee of both the work performed and the Pole affected by such work within a reasonable time after its performance.

7.2 Company's
Rights in an
Emergency

**SECTION 8. DISCHARGE
OF LIENS; PERFORMANCE
OF WORK**

Licensee agrees that it will not, directly or indirectly, create, incur, assume or suffer to exist any lien (whether mechanics, materialman or other) or other encumbrances on the Equipment attached to any Pole, or to any property, real or personal, owned or controlled by a Company Group, resulting from or arising out of any work performed by or on behalf of Licensee (including, without limitation, by any Licensee Party) pursuant to this Agreement.

Licensee will, at its sole expense, promptly take any action as may be necessary to discharge any such lien or encumbrance.

8.1 Discharge of
Liens or other
Encumbrances

All work performed by any Licensee Party, pursuant to or within the scope of this Agreement, shall be undertaken and completed in a safe, good and workmanlike manner (including, without limitation, in compliance with the Standards) and shall not interfere with the use of any equipment of any Company Group or any Joint User.

8.2 Licensee's
Performance of
Work

Licensee shall ensure that any Licensee Party, performing any such work, is properly trained with respect to, and otherwise familiar with, all applicable safety procedures and requirements (including, without

| |

limitation, those pertaining to the risks associated with making contact with electrical conductors, and prohibitions against coming into closer proximity to the electrical conductors of Company than is permitted by the Standards).

This Agreement, if not terminated earlier in accordance with the provisions of Section 11, shall continue in effect for a term of one (1) year and thereafter until terminated as provided herein.

This Agreement may be terminated in its entirety or with respect to any one or more of the Poles, or with respect to one or more designated areas in which Company provides utility service, at the end of the initial one year term, or at any time thereafter, by either Party giving to the other Party at least sixty (60) days' written notice.

Upon termination of this Agreement for any reason, all obligations of the Parties pursuant to this Agreement shall terminate, except for those which, by their sense and context, are intended to survive such termination, including, without limitation, obligations pertaining to indemnification.

SECTION 9. TERM

SECTION 10. RENTAL AND OTHER PAYMENTS

In each calendar year during the term of this Agreement, Licensee shall make an advance rental payment to Company. During the first calendar quarter of each year, Company shall submit to Licensee an invoice designating the advance rental payment due for that calendar year; further, Company shall make a reasonable effort to submit that invoice to Licensee during the month of January of each year. That invoice shall be paid in accordance with the provisions of Sections 10.8 and 10.9.

10.1 Advance Rental Payment

The advance rental payment shall be equal to the rental payment specified in Section 10.3 times the sum of the individual Poles on which Equipment is attached, on January 1 of the calendar year for which the advance rental payment is being paid, as determined from the perpetual inventories maintained by the Parties pursuant to Section 10.6

10.2 Computation of the Advance Rental Payment

The rental rate for attachments of Equipment to each Pole shall be in the amount specified in Attachment B.

10.3 Rental Rate

The rental rate will be adjusted each calendar year by the amount of any increase in the Consumer Price Index (published by the Bureau of Labor Statistics of the U.S. Department of Labor), for the twelve month period ending September 30 of the year immediately preceding the year with respect to which the rate adjustment is being made.

10.4 Adjustments to Rental Rate

The advance rental payment may be adjusted, at Company's discretion, for all additional Poles on which Equipment is attached during any calendar year. If invoiced by Company, Licensee shall make payments to Company reflective of additional Poles on which Equipment is attached at any time during such calendar year.

10.5 Adjustment to the Advance Rental Payment

Company shall maintain a perpetual compilation of the Permit Applications and notices submitted to it by Licensee pursuant to this Agreement. Licensee and Company shall maintain perpetual inventories of the Equipment attachments on Poles and the Poles on

10.6 Compilation of Permit Applications and Notices;

which Equipment is attached. Such inventories shall be based on the physical inspections specified in this Section 10.6, together with the Permit Applications and notices pertaining to attachments of Equipment required by this Agreement.

Perpetual
Inventories;
Physical
Inspection

The Parties will conduct, or will cause to have conducted, a physical inspection of the Equipment attached to Poles every five (5) years, at a time designated by Company. Such inspection will be conducted either:

(a) by joint physical inspection, utilizing both Licensee and Company employees; or

(b) when Company and Licensee employees are not available to perform the inspection, by a contractor selected by Company, in its reasonable judgment.

In the event that the inspection is performed by a contractor, Company will, from time to time during the course of that inspection, review the contractor's work to assess whether the inspection is being performed accurately.

Company shall use reasonable efforts to have the physical inspection conducted in cooperation with Joint Users (including, as appropriate, having the inspection performed with respect to all attachments on Poles, rather than with respect to just the Licensee's attachments), and the costs of any joint physical inspection, undertaken in cooperation with Joint Users, shall be borne pro rata by the Licensee and Joint Users.

Nevertheless, Licensee will otherwise be charged for and shall pay all costs for, or incurred in connection with, the inspection, regardless of the method utilized. Such costs will include, but are not limited to, costs of materials employees, and contractors, transportation costs, and any miscellaneous charges necessary for conducting the inspection.

Licensee acknowledges that Company may, in its discretion, contract with or otherwise arrange for one or more agents or contractors to act for or on behalf of Company, or in furtherance of Company's rights, pursuant to or in connection with this Agreement (collectively, "Company Representatives"). Licensee agrees that Company Representatives may invoice Licensee for all costs and expenses incurred by them in furtherance of such actions.

10.7 Licensee's
Payment of
Costs and
Expenses
Incurred by
Company or
Company
Representatives

Further, Licensee agrees that Company Representatives shall be third party beneficiaries to the extent necessary for them to enforce Licensee's payment obligations hereunder. Company Representatives shall invoice Licensee for all costs and expenses incurred by them pursuant, but not limited to, Section 3, 4, 5, 6, 7 and 10, from time to time.

Subject to Section 4.1.2 pertaining to Preparation Costs, Licensee shall pay each invoice submitted to it by Company or, as appropriate, by a Company Representative, within thirty (30) days of its receipt of that invoice and will remit payment to the address indicated on each invoice, as Company or Company Representatives may designate from time to time.

10.8 Payment of
Invoices

| |
|--|
| DISTRIBUTION POLE LICENSE AGREEMENT |
|--|

Any portion of an invoice not paid when due shall bear interest at a rate of one and one-half percent (1.5%) per month or the maximum rate allowed by law, whichever is less, unless such amount is disputed and is paid into escrow pursuant to Section 10.9.

Unless otherwise agreed to by the Parties, whenever Licensee in good faith disputes a payment, it shall deposit the amount in dispute in an interest bearing escrow account acceptable to Company within the time period provided by Section 10.8. Any amount so deposited shall remain in such escrow account until the dispute is resolved.

Upon resolution of the dispute, the amount so deposited, plus interest earned on that amount, shall be paid to the Party determined to be entitled to the amount in the escrow account.

10.9 Disputed
Invoices or
Adjustments

**SECTION 11. DEFAULT
AND TERMINATION**

If Licensee:

11.1 Default by
Licensee

(a) fails to pay fully or deposit in escrow all monies due Company or Company Representatives on the date that the payment is due, pursuant to the provisions of Section 10, and such failure shall continue, in whole or in part, for a period of more than thirty (30) days; or

(b) fails to comply with any term, condition or covenant of this Agreement, other than any provision providing for the payment of monies due Company or Company Representatives, and such failure remains uncured for a period of thirty (30) days following Licensee's receipt of written notice of the kind, character and nature of the failure by Licensee (or if such non-compliance cannot reasonably be cured within thirty (30) days of such notice, Licensee has not commenced to cure and satisfy the failure within thirty (30) days and shall not thereafter proceed to cure such failure with reasonable diligence and good faith); then, in any such event, Licensee shall pay all monies owed to Company or Company Representatives under this Agreement in accordance with the provisions of Section 10, and Company may pursue any one or more of the following remedies, and Company Representatives may pursue the remedies contained in subsection (iii) below, without any notice or demand whatsoever to Licensee:

(i) cancel and terminate this Agreement in its entirety, or with respect to one or more designated areas in which Company provides utility service, or with respect to any one or more of the Poles; or

(ii) revoke Licensee's permission to use any Poles involved in such default or non-compliance; or

(iii) institute suit or other adjudicatory proceedings.

Licensee shall pay all of the costs and expenses, including, without limitation, reasonable attorneys' fees, incurred by Company or, as appropriate, Company Representatives, by reason of the foregoing events of default, and in seeking any remedy for, or relief from, such events of default.

| |
|--|
| DISTRIBUTION POLE LICENSE AGREEMENT |

Company's, or Company Representatives', pursuit of any of the respective remedies available to them pursuant to this Section 11.1, shall not preclude Company or Company Representatives from pursuing any other remedies provided for in this Agreement or otherwise provided by law, nor shall Company's, or Company Representatives', pursuit of any remedy provided in this Agreement constitute a forfeiture or waiver of any payment of monies due to Company or Company Representatives under this Agreement, or of any damages accruing to Company or Company Representatives by reason of Licensee's failure to comply with any of the terms, conditions or covenants of this Agreement.

In the event any lawfully required franchise, license, permit, waiver, consent or easement held by Licensee, and required for or in furtherance of Licensee's use of any Equipment attached to Poles, is revoked or denied to Licensee for any reason, in whole or in part, Licensee's rights under this Agreement shall immediately terminate to such extent, and Licensee shall, within thirty (30) days, remove such Equipment from Poles as may be required to comply with such revocation or denial of authority.

**SECTION 12.
INDEMNIFICATION,
CONSEQUENTIAL
DAMAGES AND TEXAS
DECEPTIVE TRADE

PROTECTION ACT**

- (a) **To the fullest extent allowed by Texas law**, Licensee agrees to defend, protect, indemnify and hold harmless the Indemnified Parties from and against all Claims asserted by any person or entity, including, without limitation, any Licensee Party, in any way arising out of, related to, caused by or incident to this Agreement, including, but not limited to:
- (i) Claims arising out of, related to, caused by or incident to Licensee's breach of this Agreement or any representation, warranty, covenant or obligation of Licensee set forth herein;
 - (ii) Claims arising out of, related to, caused by or incident to the attachment, maintenance, replacement, relocation, repair, modification, removal, use or operation of, or in any other way arising out of, related to, caused by or incident to, any Equipment;
 - (iii) Claims arising out of, relating to, caused by or incident to the Permitted Use; or
 - (iv) Claims arising out of, related to, caused by or incident to any interruption, disruption, interference or termination of the Permitted Use.

12.1 Licensee's Obligation to
Indemnify

- (b) The obligations provided for in this Section 12.1 apply to any of Licensee's contracts with contractors, whether now or hereafter in effect, under the terms of which any such contractors attach, maintain, replace, relocate, or modify any Equipment on a Pole (the "Attachment Contracts"). Licensee shall use its best efforts to ensure that each of the Attachment Contracts includes provisions whereby the subject contractor acknowledges and agrees that Company (whether identified by name or description) shall have the full benefit of any indemnity obligation, insurance coverage

(with Company being designated as an insured or additional insured party under the terms of the applicable policies), and limitations of liability, applicable to or protecting Licensee under the terms of that contractor's Attachment Contract.

- (c) To the extent necessary to permit the Indemnified Parties to enforce the indemnity obligations provided for in Section 12.1(a), Licensee agrees that, with respect to any Claims, it shall and does, to the fullest extent legally permissible, hereby waive, and shall require each of its insurers to waive, as to the Indemnified Parties, any and all defenses, limitations of liability, or other protections Licensee may have or claim pursuant to the laws of the State of Texas, including, without limitation, those provided for in the Texas Tort Claims Act (Chapter 101 of the Texas Civil Practice and Remedies Code), and the Texas Workers' Compensation Act (Chapter 401 of the Texas Labor Code).

- (d) The Parties acknowledge and agree that, within their lawful and reasonable contemplation, all payments which may be made by Licensee, pursuant to its indemnity obligations or other potential liabilities under this Agreement, can and will reasonably be paid and satisfied from some fund in the immediate control of Licensee, readily available for the purpose of satisfying and paying such indemnity obligations and other potential liabilities. Nevertheless, in the event any such indemnity obligation or potential liability accrues and becomes ascertainable in amount and, further, if the amount of such indemnity obligation or liability exceeds the funds then available to Licensee to satisfy such indemnity obligation or liability, Licensee agrees that, in each year during which such indemnity obligation or liability ascertainable in amount exists, arising from or relating to a Claim, it will, promptly and as soon as permissible under applicable law, levy a tax, with full allowances being made for tax delinquencies and costs of tax collection, which will be sufficient to raise and produce the money required (including, without limitation, any applicable sinking fund) to ensure that all indemnity obligations or liabilities ascertainable in amount, arising from or relating to a Claim, are satisfied and discharged.

- (e) If, for whatever reason, any provision of this Agreement is held by a court to be in conflict with or contradictory to Licensee's duty to indemnify the Indemnified Parties, as provided for in this Agreement, such conflicting or contradictory provision shall be subjugated to, and shall not impair, affect, or invalidate, Licensee's duty to indemnify the Indemnified Parties, and such duty shall remain in full force and effect.

- (f) With regard to Licensee's obligations of indemnification and other potential liabilities provided for in this Agreement, the Parties acknowledge and agree that Licensee has entered into this Agreement in furtherance of public purposes, and that no payment made or obligation incurred by Licensee hereunder shall constitute or be construed as an application or lending of Licensee's credit, or an application of public funds for private use.

Under no circumstances whatsoever shall any Company Group be liable to any Licensee Party in contract, in tort (INCLUDING SOLE OR CONCURRENT, ACTUAL OR IMPUTED, NEGLIGENCE, OR

STRICT LIABILITY), under any warranty, or otherwise for any special, indirect, incidental, or consequential loss or damage of any nature, including, without limitation, for the cost of capital, loss of profits or revenues or the loss of use thereof, attorneys' fees (except as otherwise expressly provided for in this Agreement) or the cost of purchased or replacement services, or claims of Licensee's users, licensees, concessionaires, or any other person, firm or entity in such regard, and to the extent allowed by law, Licensee agrees to indemnify and hold each Company Group harmless from and against such losses or damages.

No Company Group shall have any liability to any Licensee Party for any expense, damage or loss caused, in whole or in part, by the action of any Company Group that damages or injures any Equipment except to the extent directly attributable to the gross negligence or willful misconduct of any Company Group.

To the extent that the Texas Deceptive Trade Practices - Consumer Protection Act, Texas Bus. & Comm. Code Section 17.41, et. seq., may be applicable to any Claim that Licensee may have against any Company Group in any way arising out of, related to, caused by or incident to this Agreement, Licensee waives the applicability of such Act to the maximum extent that it can now or in the future be waived.

Notwithstanding the foregoing, nothing in this Agreement shall be construed as an admission by any Party that Licensee is a "consumer" as defined in such Act or that such Act is otherwise applicable to any Company Group, any Licensee Party or this Agreement.

Within a reasonable period after receiving or becoming aware of the assertion of any Claim within the scope of Section 12.1, Company shall notify Licensee of the assertion of such Claim.

Company's failure to provide such notice shall not, however, alter or, in any manner, impair Licensee's obligations of indemnity, as provided for in Section 12.1, except to the limited extent that such failure directly and adversely affects Licensee's efforts or ability to fulfill such obligations of indemnity.

Licensee shall, at its sole expense and during the term of this Agreement, purchase and maintain insurance in accordance with the requirements of Attachment C, Licensee's Insurance Requirements.

However, notwithstanding the foregoing insurance requirements, if an entity is exempt by law from the provision of insurance or has otherwise been granted by law the ability to self-insure, a cite to the applicable law or regulation creating such exemption, or other verifiable evidence of any exemption from the provision of insurance is required. Such evidence shall be provided to Company prior to the execution of this Agreement and shall be made an attachment hereto.

Licensee will notify the Company manager of claims per the requirements in Attachment C as soon as practical of any accidents or occurrences resulting in injuries to any person, including death, or any

Nothing in this Section 13, or the provision of any insurance required by this Section 13, shall affect, limit or otherwise reduce the indemnity obligations provided for in Section 12.

The license granted to Licensee hereunder with respect to any Pole shall be non-exclusive, in that Company reserves the right to use any or all of such Pole for any lawful purpose or business, or to lease or otherwise permit any other person or entity the right to lease or use any or all of such Pole for any lawful purpose.

Licensee has and retains whatever rights it may have to install and construct its Equipment, separate and apart from this Agreement; provided, however, that in no event shall Licensee make any use of Poles, or any other facilities or equipment of Company, except in accordance with, and subject to, the terms and conditions of this Agreement; and provided further, however, that Licensee shall not locate poles, guys, or other facilities where they will;

(a) interfere with access to Poles or the operation of Company's electric system; or

(b) result in or cause a condition of non-compliance with any provision of the Standards.

In addition to the limitations provided for in, and without limiting Licensee's responsibilities under, Section 2.2, Licensee shall not, without the prior written consent of Company, transfer, assign, delegate or sublet any of its rights or obligations under this Agreement.

Except to the extent expressly consented to by Company (such consent not to be unreasonably withheld), no permitted transfer, assignment, delegation or subletting by Licensee shall release or relieve Licensee, or Licensee's successor-in-interest, of any of its obligations under this Agreement, and Licensee, or Licensee's successor-in-interest, shall remain fully obligated and liable to Company under this Agreement, notwithstanding any such permitted transfer, assignment, delegation or subletting.

Company may transfer, assign or delegate any of its rights or obligations under this Agreement at any time, without the consent of or prior notice to Licensee. Company shall notify Licensee of any such transfer, assignment or delegation within thirty (30) days thereof.

This Agreement shall be binding upon and inure to the benefit of the Parties and their respective successors and assigns, where assignment is permitted by this Agreement.

Notices given or made pursuant to or in connection with this Agreement shall be effective as of the time of delivery to or receipt by the Party to whom such notice is addressed; provided, however, that no notice shall be effective unless it is given or made in compliance with this Section 19.1.

The person, address, fax number, or Email address of any Party, to which notice shall be given pursuant to Section 19.1, may be changed at any time, upon written notice given pursuant to Section 19.1 to the other Party.

Licensee shall, at its own cost, operate, attach, replace, relocate, repair, modify and remove its Equipment on or from Poles in compliance with the Standards, and all other applicable constitutions, statutes, ordinances, rules, regulations, codes, orders, decisions, ordinances and decrees of all governmental bodies with jurisdiction over the Licensee or subject matter of this Agreement.

Where a difference in any of the foregoing specifications may exist, the more stringent shall apply.

If any portion of this Agreement becomes or is determined by a governmental body with jurisdiction to be void, unenforceable, invalid or illegal, Licensee and Company shall modify, to the extent they are able to do so, such portion in a manner which preserves the intent and effect both of such portion and the remainder of this Agreement, to the maximum extent which is effective, enforceable, valid and legal.

expressly provided in this Agreement, or unless the Party having the right expressly waives such rights or duties in a written instrument identified as a waiver.

Failure to enforce or insist upon compliance with any of the terms or conditions of this Agreement shall not constitute a general waiver or relinquishment of any such terms or conditions, but the same shall be and remain at all times in full force and effect.

Except as specifically provided herein (and in particular, but without limitation, for or with respect to Company Representatives), this Agreement is entered into for the sole benefit of Company and Licensee and, where permitted, their respective successors and assigns.

Nothing in this Agreement or in any approved Permit Application shall be construed as giving any benefits, rights, remedies or claims to any other person, firm, corporation or other entity, including, without limitation, Licensee's or Company's customers, concessionaires and licensees.

Nothing in this Agreement shall be deemed or construed by the Parties, or by any third party, as creating the relationship of principal and agent, partners or joint ventures between the Parties, it being understood and agreed that no such provision, or any acts of the Parties, shall be deemed to create any relationship between the Parties other than the relationship of licensor and licensee.

Except for and as provided in any applicable franchise granted by Licensee to Company or its predecessor-in-interest, any existing agreements between the Parties or their predecessors, regarding the attachment of Equipment to Poles, are by mutual consent of the Parties hereby abrogated and superseded by this Agreement.

Notwithstanding anything to the contrary in this Agreement, the Parties from time to time may prepare and implement such supplemental operating routines or working practices as they mutually agree in writing to be necessary or desirable to effectively administer the provisions of this Agreement.

Section and subsection headings are inserted in this Agreement for convenience of reference only and shall in no way modify or restrict any of the terms and provisions of this Agreement.

This Agreement may be simultaneously executed in several counterparts. All such counterparts, when executed and delivered, each as an original, shall constitute but one and the same instrument.

No provision of this Agreement shall be construed against or interpreted to the disadvantage of either Party by any court or other governmental or judicial authority, by reason of such Party having or being deemed to have prepared, structured or dictated such provision.

As used in this Agreement, the term "Force Majeure" means acts of God, strikes, lockouts or other industrial disturbances, acts of public

ATTACHMENT C

LICENSEE'S INSURANCE REQUIREMENTS

A. Coverage Requirements

Licensee will, at its own expense, maintain in force throughout the period of the Agreement or as otherwise specified and until released by Company, at least the following minimum insurance coverages with insurers acceptable to Company.

- 1) Commercial General Liability Insurance including bodily injury and property damage, personal and advertising injury, contractual liability, and including products and completed operations, with minimum limits of one million dollars (\$1,000,000) per occurrence for bodily injury, including death and property damage.
- 2) Automobile Liability Insurance for coverage of owned, non-owned and hired autos, trailers or semi-trailers with a minimum combined single limit of one million dollars (\$1,000,000) per accident for bodily injury, including death, and property damage.
- 3) Excess Liability Insurance over and above the employers' liability, commercial general liability and automobile liability insurance coverage, with a minimum limit of two million dollars (\$2,000,000) per occurrence. Coverage must replace exhausted aggregate limits under Commercial General Liability and Workers' Compensation (Employers Liability) insurance coverages referenced herein.
- 4) Workers' Compensation and Employers' Liability Insurance providing statutory benefits in accordance with the laws and regulations of the State of Texas or state of jurisdiction as applicable. The minimum limits for the employers' liability insurance will be five hundred thousand dollars (\$500,000) bodily injury each accident, five hundred thousand dollars (\$500,000) each employee bodily injury by disease, five hundred thousand dollars (\$500,000) policy limit bodily injury by disease.

Note: The required limits of insurance can be satisfied by any combination of primary and excess coverage.

B. Additional Requirements

- 1) Each of the policies in section A., above, except workers' compensation and employers' liability insurance, will contain provisions that specify that the policies are primary and will apply without consideration for other policies separately carried and will state each insured is provided coverage as though a separate policy had been issued to each, except with respects to limits of insurance, and that only one deductible will apply per occurrence regardless of the number of insureds involved in the occurrence. Licensee will be responsible for any deductibles or retentions.
- 2) Each of the policies in section A., above, except workers' compensation and employers' liability insurance, if written on a claims-made basis, will be maintained in full force and effect for two (2) years after final acceptance or completion of the Work, whichever is later.
- 3) All policies must be issued by carriers having an *A.M. Best's* rating of "A-" or better, and an *A.M. Best's* financial size category of "VIII", or better. If requested in writing by Company, Licensee will make available to Company a certified copy of any or all insurance policies or endorsements required of Licensee.
- 4) Company will receive advance written notice prior to non-renewal or cancellation.
- 5) Certificates of insurance (COI) must show "Oncor Electric Delivery Company LLC and its affiliates" as the certificate holder, and as an additional insured (including completed operations) to the extent Licensee has agreed to indemnify any Indemnified Party or Parties pursuant to the provision of indemnity therein. The additional insured requirement shall apply to all of the required coverages except workers' compensation. All of the required coverages must provide a waiver of subrogation in favor of the certificate holder.

C. Limitation of Liability

The requirements contained herein as to the types and limits of all insurance to be maintained by Licensee are not intended to and will not, in any manner, limit or qualify the liabilities and obligations assumed by Licensee under the Agreement.

D. Carrier/Agent to Provide Proof of Insurance

Prior to execution of the Agreement, and when requested by Company, Licensee will instruct its insurance carrier/agent to submit directly to Company valid certificate(s) of insurance, evidencing the coverage required herein. Valid certificates of insurance utilize ACORD 25 form dated 2010/05 or later and other Texas Department of Insurance (TDI) approved forms which properly addresses each requirement referenced in this document (as depicted in Company's Sample COI, available on request). If Licensee's insurance carrier/agent provides to Company a certificate of insurance that is not an ACORD 25 form dated 2010/05 or later, insurance carrier/agent must also submit sufficient documentation directly to Company indicating that certificate is approved by TDI. Company's review of certificates or policies will not be construed as accepting any deficiencies in Licensee's insurance or relieve Licensee of any obligations set forth herein. In addition, Licensee will require each of its subcontractors to provide adequate insurance. Any deficiencies in the insurance provided by subcontractors will be the responsibility of Licensee.

E. Description of Operations Language

The following language or language substantially in the form of such language must be included in the Description of Operations section of the COI or otherwise indicated on the form:

Certificate holder is included as an additional insured (including completed operations) as respects all of the required coverages except workers' compensation. All of the required coverages provide a waiver of subrogation in favor of the certificate holder.

F. Certificate Holder Detail

The certificate holder must be shown on the COI as follows:

**Oncor Electric Delivery Company LLC and its affiliates
Attention: Joint Use Management
115 W. 7th Street, Suite 211
Fort Worth, TX 76102**

G. Reporting of Damage and Accidents

Licensee agrees to report to the manager of the claims department (address shown below) of the Company in writing as soon as practical all instances of property damage (including, without limitation, damage to any Equipment or Pole), and all accidents or occurrences which may result in injuries to any person, including death, arising out of or relating to this Agreement.

**Oncor Electric Delivery Company LLC
Attention: Claims
1616 Woodall Rodgers Freeway
Dallas, TX 75202**

H. Maximum Limits of Insurance

If the insurance obligations required in the Agreement exceed the maximum limits permitted by law or do not otherwise conform with any applicable law, then this Agreement will be deemed amended so as to only require Licensee to provide insurance to the maximum extent allowed by law.

I. Notice for Legislatively Created Entities

Notwithstanding the foregoing insurance requirements, if an entity is exempt by law from the provision of insurance or has otherwise been granted by law the ability to self-insure, a cite to the applicable law or regulation creating such exemption, or other verifiable evidence of any exemption from the provision of insurance is required. Such evidence shall be provided to Company prior to the execution of this Agreement and shall be made an attachment hereto.
