

GRASSTONE™ II 8CM

PRODUCT NUMBER # 189

- Classical paving grid with large openings to support vegetation
- Versatile 3:2 shape easily forms stacked, runner, and herringbone patterns
- Occasional vehicular use
- Initial infiltration rate exceeds 500 in/hour per ASTM C1781.
- Made of durable concrete with iron oxide pigments that will not fade with extended UV exposure. Meets or exceeds applicable requirements of ASTM C1319

Grasstone units are the reliable favorite of designers, engineers, and landscape architects for creating permeable or vegetated surfaces that resists rutting. Two Grasstone designs make attractive and permanent solutions for emergency vehicle access lanes, spillways, and temporary or overflow parking areas. Grasstone units may be filled with soil / grass or free-draining aggregates, depending on vegetation or infiltration requirements.
