Cash Flow Statement-September 30, 2019

Cash Flow was distributed to Board members at the meeting with revised numbers (copy on file in the Parks and Recreation Director's Office). A month-to-month sales tax comparison through September.

Matt Young, Parks and Recreation Director, informed the Board that sales tax is up about 2.5% for the month over last year and up about 7.7% year to year. Revenue items are not yet finalized as we are awaiting a few expenses that have not been received. Matt stated that the Cash Flow Statement will reflect some operating expenditure savings due to vacant positions. The projected ending balance is \$5,258,225.

Monthly Update on Daily Maintenance of Current Park Facilities

1. Skinner Sports Complex: Staff has been conducting general fall maintenance. Fertilizer has been applied to all athletic fields as well as pre-emergent applied to game fields and common areas. Staff has also cleaned up debris around the park, repaired several water fountains and irrigation valves.

2. Philip Thompson/Allmon Soccer Complex: General fall maintenance as well. The new field has established well and staff has spread fertilizer and over seeded the non-renovated field and common areas as well as performed irrigation repairs. The Allmon soccer fields have also been fertilized and over seeded with perennial ryegrass to help with winter foot traffic.

3. Chandler: At Chandler Park the football fields have also been fertilized and over seeded with ryegrass. Also electrical repairs were made to the concession stand and scoreboards.

4. Rose Park: At Rose Park staff is experimenting with a combination of fescue and ryegrass on the shady bare spots under the pecan trees, around the playground and along bare areas along the linear trail. Constant watering the first few weeks will be crucial to try and get these areas established for winter. The volleyball court was tilled up and the sand was reworked and pulled back from the concrete edging. All the roofs on the pavilions were power washed. The large pecan tree by the pond was trimmed back and treated with deep root injection fertilizer. Staff has begun touching up and repainting the bollards.

5. Oliver Nature Park: The front and back ponds were treated for algae. Replacement of the Timber seal boards on the boardwalk is continuing. The wildflower areas and partridge pea prairie have been mowed for the fall in anticipation for the bluebonnets and wildflowers for next spring to germinate. Several areas of the granite trail were dug out and repaired to help mitigate some of the trail construction traffic. Repair and touch up to the original mutt mit containers has begun. Also staff is trying to replace the temporary wildflower area barrier fences with the permanent wooden split rail fencing that occurs in the rest of the park.

6. Overall: Temperatures have finally cooled off a little bit. Hopefully with some additional rain we can anticipate our over seeded practice fields to green up and get some bluebonnets to germinate.
