Title

Review and approval of the Semiannual Reports for the period between July 1, 2020 and December 31, 2020, on the implementation of the Capital Improvements Plan for Water, Wastewater and Roadway Impact Fees and the collection of such fees.

Description/History

The members of the Planning and Zoning Commission also serve as the members of the Capital Improvements Advisory Committee (CIAC). This committee is appointed by City Council to give advice to the Council on the City's impact fee program. In accordance with state law, the impact fees are updated every five years. The Water and Wastewater Impact Fees were updated August, 2019. The Roadway Impact Fees were updated July, 2015. An update to the Roadway Impact Fees is in progress and expected to be completed this summer.

One of the duties of the CIAC is the periodic review and approval of the semiannual reports on impact fees as required by Texas statute. The reports, one for water and wastewater, and the other for roadway, show the impact fee revenue collected during the six-month reporting period and during the previous six-month period. Tables in each report depict the updated status of the water, wastewater and roadway facilities included in the 10-year Capital Improvements Plans.

Raymond Coffman, City Engineer, will be present at the meeting to answer questions related to the reports. The Committee members are encouraged to contact Mr. Coffman at 817-276-4238 with any questions about the reports prior to the meeting.

Recommendation

Staff recommends approval.

of

THE CAPITAL IMPROVEMENTS ADVISORY COMMITTEE

on

WATER & WASTEWATER IMPACT FEES

for the period from July 1, 2020 to December 31, 2020

Purpose

As required by Chapter 395 of the *Local Government Code*, the Capital Improvements Advisory Committee has provided this report to advise the City Council of the progress of the current Capital Improvements Plan for Water and Wastewater Impact Fees plus any perceived inequities found in implementing the plans or imposing the impact fees.

Impact Fee Update

State law requires cities with impact fees to update their fees and the associated documents (i.e. land use assumptions and capital improvements plan) at least once every five years. In compliance with state law, the City Council updated the water and wastewater impact fees and the documents mentioned above. The updated impact fees shown below became effective on August 12, 2019.

Water	Impact Fee Amounts for			
Meter Size	Water	Wastewater	Total	
3/4"	\$3,000	\$1,500	\$4,500	
1"	\$5,100	\$2,550	\$7,650	
1.5"	\$9,900	\$4,950	\$14,850	
2"	\$24,900	\$12,450	\$37,350	
3"	\$50,100	\$25,050	\$75,150	
4"	\$99,900	\$49,950	\$149,850	
6"	\$159,900	\$79,950	\$239,850	

According to state law and City Ordinance, the updated water and sewer impact fees cannot be imposed on lots that are part of an approved preliminary or final plat until 12 months after the adoption of the fees.

Progress of Capital Improvements Plan

The attached Tables 1 and 2 depict the updated status of the Capital Improvements Plan for Water and Wastewater Impact Fees.

Impact Fee Collection

The fees collected during this report period are shown in the last row of the table below. The fees collected in the previous report period are also shown for comparison purposes.

Report Period	Water Impact Fee	Wastewater Impact	
		Fee	
01/01/20 - 06/30/20	\$ 1,071,280	\$ 613,610	
07/01/20 - 12/31/20	\$1,813,720	\$881,733	

Conclusion

The Capital Improvements Advisory Committee finds that adequate progress is being made to implement the Capital Improvements Plan for Water and Wastewater Impact Fees and that there are no apparent inequities in implementing the plans or imposing the impact fees, and recommends no change to the plans or the fees.

THE CAPITAL IMPROVEMENT ADVISORY COMMITTEE

on

ROADWAY IMPACT FEES

for the period from July 1, 2020 to December 31, 2020

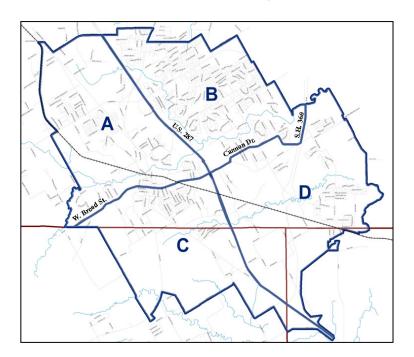

Purpose

As required by Chapter 395 of the *Local Government Code*, the Capital Improvements Advisory Committee has provided this report to advise the City Council of the progress of the current Capital Improvements Plans for Roadway Impact Fees plus any perceived inequities found in implementing the plans or imposing the impact fees.

Impact Fee Update

State law requires cities with impact fees to update their fees and the associated documents (i.e. land use assumptions and capital improvements plan) at least once every five years. In compliance with state law, the City Council updated the roadway impact fees and the documents mentioned above on July 27, 2015. An update to the Roadway Impact Fees is in progress and expected to be complete this summer. For implementation, the City is divided into four service areas, see map below. The amount of the roadway impact fee assessed depends on the land use and the service area a lot is located within. See attached Table 1 for specific fees per land use and service area.

Service Area Map

Progress of Capital Improvement Plans

Table 2 depicts the updated status of the Capital Improvements Plan for Roadway Impact Fees. The roadway projects are listed in the table by service areas. The capital plan in this report is from Table 4 in the May 2015 Impact Fee Report.

Total	\$1,498,714.37	\$1,829,861.04

The amounts in the following table represent the impact fees collected during this reporting period and the previous reporting period:

Conclusion

The Capital Improvements Advisory Committee finds that adequate progress is being made to implement the Capital Improvements Plan for Roadway Impact Fees and that there are no apparent inequities in implementing the plans or imposing the impact fees, and recommends no change to the plans or the fees.
