SUP#21-006: Continuation of public hearing and consideration of a request for a Specific Use Permit for an Auto Rental on approximately 2.754 acres being Lot 5, Block 1, Mansfield Commons located at 990 N US 287; The Commons at Walnut Creek 18, Owner; Avis Budget, proposed tenant/applicant

#### **Description/History**

Existing Use: Multi-tenant retail building

Existing Zoning: C-2, Community Business District

#### Surrounding Land Use & Zoning:

North - Country Club Drive; gas station, retail and restaurants, C-2 South - Retail, restaurants, and parking lot, C-2 East -Retail, restaurants, and parking lot, C-2 West - Retail, restaurants, and parking lot, C-2

#### Request to Table

The applicant is working with the property owner to find a solution to the concerns of the Planning and Zoning Board. The applicant submitted a letter of request to table the case until the October 18, 2021 meeting.

#### **Comments and Considerations**

The applicant is proposing a car rental office and vehicle storage in the existing shopping center at 990 N US 287 Suite 108. This will be a full service car rental facility servicing both commercial accounts and leisure customers. The location will be a pickup/drop off location with approximately ten cars on site at a time. Vehicles will be dropped off in the parking lot awaiting customers to pick them up. At the end of the rental period, the vehicles will be dropped off in the parking lot, the interior of the vehicles will be cleaned and wait to be picked up and transported to another location.

#### **Property**

The applicant is requesting a Specific Use Permit (SUP) for an Avis Budget Car Rental office and vehicle storage. The building is a large multi-tenant building. The proposed business will occupy a suite with an area of approximately 1,225 square feet formerly occupied by Sign-a-Rama. The existing building meets the C-2 requirements for parking and landscaping. The parking spaces the

applicant has specified on Exhibit B are the main parking spaces for the existing

businesses.

#### Recommendation

The subject property is located in the C-2 Community Business District, which allows for an Auto Rental use with a Specific Use Permit. The Zoning Ordinance specifies that a Specific Use Permit shall only be issued if all seven conditions have been met; staff does not believe that all conditions have been met.

Condition 1 specifies "That the specific use permit will be compatible with and not injurious to the use and enjoyment of other property, nor significantly diminish or impair property values within the immediate vicinity." Staff determines that this is a prominent shopping center in the City and that an auto rental use is not the highest and best use for this location.

Condition 4 specifies "The design, location and arrangement of all driveways and parking spaces provides for the safe and convenient movement of vehicular and pedestrian traffic without adversely affecting the general public or adjacent developments". The business will use ten or more parking spaces for vehicles waiting to be picked up as well as parking spaces for employees. Vehicles that are being returned will be parked until the interior can be cleaned and then continue to use those spaces until they can be picked up and moved to another location. Parking at this site was established for customer use and not for the overnight storage and cleaning of vehicles. Staff determines the location of the vehicle storage will be visually unappealing and has the potential to become a nuisance to surrounding businesses as it is not separated from the existing parking for the commercial complex.

The applicant has stated in their narrative that no more than ten cars will be at this location at a time. Depending on the amount of business, staff believes they could potentially have more vehicles at any given time. It would be very difficult for Code Compliance to document and enforce the amount of cars coming and going in order to enforce this regulation.

Staff recommends denial of the proposed SUP.

# Avis Budget Car Rental, LLC Specific Use Permit SUP#21-006 990 N Highway 287, Suite A-108 Mansfield, TX 76063

**Project Narrative** 

Avis Budget Car Rental, LLC is the parent company of Avis Rent a Car System, LLC and Budget Rent a Car System, Inc. We operate both the Avis and Budget car rental brands throughout the United States and worldwide. We are expanding our footprint in the greater Dallas Fort Worth metropolitan area and we've been seeking a rental office location in Mansfield for several years. We will have both Avis and Budget brands at this site.

We will typically have less than 10 cars idle at any given time. Our fleet is shared throughout the greater DFW area and is shuttled in/out based on reservation demand. This will be a full-service car rental facility, servicing both commercial accounts and leisure customers from the surrounding area. We offer daily, weekly, and monthly rates, along with one-way rentals to and from any of our other rental locations within the lower 48 states. Our hours of operation will be Monday through Friday – 7:30 AM to 6:00 PM, Saturday 8:00 AM to 2:00 PM, and Sunday 10:00 AM to 1:00 PM or something very similar. This location will not offer truck rentals.

The location is minimally staffed with an independent agency operator. At this particular location, there would be a maximum of two staff members on duty at any time. Vehicles will be cleaned on site (interiors) and all washing activities will take place off-site. No vehicular maintenance will be conducted on-site.

RE: SUP#21-006 AVIS BUDGET

VIA EMAIL TO: Shirley.emreson@mansfieldtexas.gov

Dear Ms. Emerson:

I am working through a number of items in order to address the comments and concerns brought forth by the Planning Commission at the September 7, 2021 public hearing. I respectfully request that the item be tabled at this time while we prepare the updated submission for review and hearing. Unfortunately I don't have an accurate estimate of how long this will take as there are a number of outside parties to engage.

Should you have any questions or need additional information, please don't hesitate to contact me.

Sincerely,

Jeffrey W. Wagner

LOCATION (fill in if you have the information) NEWSPAPER DATE Not a replacement item SURVEY, ABSTRACT Not a replacement item

#### **Title**

ZC#21-013: Public hearing for a change of zoning from SF-7.5/12, Single-Family Residential and C-1, Neighborhood Business Districts to PD, Planned Development District for a church and other church related facilities, a pre-school, day care, education, coffee shop, eating place without drive-through service and other OP uses as allowed on approximately 10.97 acres, being Lot 1R1, Block 1, Bethlehem Baptist Church Addition and a 0.1 acre tract situated in the T.J. Hanks Survey, Abstract No. 644, City of Mansfield, Tarrant Co. TX, addressed at 1188 W Broad Street; Shank Architects, architect and Bethlehem Baptist Church, owner

#### **Description/History**

Existing Use: Church and church-related facilities

Existing Zoning: SF-7.5/12 and C-1

#### Surrounding Land Use & Zoning:

North - Vacant and single-family residential, SF-7.5/12

South - Vacant, single-family residential and Pioneer Place (multi-family residential), PR and PD

East - View at the Reserve (single-family residential) and floodplain, PD

West - Masonic Lodge and vacant, PD; and Vacant (west side of US 287), PR and I-1

#### Thoroughfare Plan Specification:

W. Broad Street - 4-lane divided major arterial

#### **Comments and Considerations**

The subject property consists of 10.97 acres at the northwest corner of W. Broad Street and Morgan Road. The property is currently occupied by Bethlehem Baptist Church, including the existing worship center, gymnasium, education buildings, mission house and other related structures.

The property is currently zoned SF-7.5/12 and C-1. The applicant is requesting to re-zone the property to PD, Planned Development District to accommodate a new church worship center and other church related facilities, a pre-school, day care, education, coffee shop, eating place without drive-through service and other OP uses as allowed.

#### Development Plan (Exhibit B)

In Phase 1, the applicant proposes a new worship and education building of 54,985 square feet. This building will replace the present worship center and community education center building. The new building will accommodate future expansions for a one-story fellowship hall in Phase 2 and a two-story youth building in Phase 3. A Detailed Site Plan approved by staff will be required for all future buildings on the property.

The applicant is using OP as the base zoning. As presented, the PD will require deviations from the OP regulations for architecture, landscaping and signage as described in the following sections.

Elevations have been provided for the Phase 1 worship and education building. The PD proposes that a Detailed Site Plan for each future building be approved by staff prior to the issuance of a building permit.

The existing trash dumpster will be relocated further to the rear of the property and screened with masonry materials that match the building.

#### Access and Parking (Exhibit B)

At present, the church has three existing driveways on W. Broad Street. Under the proposed development plan, the center and eastern driveway will be reconfigured to provide better circulation around the worship center. A new driveway will be installed on the north side of the property on Morgan Road.

Church parking must be provided at a ratio of 1 space for every 4 seats in the sanctuary. The new worship center will have 1,074 seats, requiring 269 parking spaces. Parking will be provided as follows:

Existing parking spaces: 117
Propose parking spaces: 228
Total parking: 345

#### Building Standards (Exhibit C)

Elevations for the Phase 1 worship and education building are shown on Exhibit C. The development plan indicates that the building will be 2-stories with a maximum height of 40 feet and a steeple with a height of 105 feet. The maximum height for an OP building is 35 feet, but the proposed elevations have a varied roofline to provide articulation. The steeple is exempt from a high limit, but an extra setback from the property line is required based on the steeple's height. The PD includes a deviation for the setback from W. Broad Street for the steeple to maintain the standard 25' setback.

The primary cladding is brick and cement plaster (stucco) siding as shown on Sheets C-1 and C-2. Stone veneer and cast stone panels are accent materials to break up the facades. The standard masonry requirement in Section 155.056(A) for structures in the OP District is a minimum of 70% masonry materials. The PD proposes allowing a minimum of 30% masonry materials and a maximum of 40% of masonry-like materials as the construction material standard.

The main entryway has a canopy with plaster fascia supported by brick columns with stone veneer on the bases. The steeple structure is supported by four gables with plaster, a brick base and metal steeple.

Section 155.056(E) requires certain architectural attributes for buildings in the OP District to address the visual impact of long uninterrupted walls or rooflines by providing a minimum amount of variations according to the size of the structure. Non-residential buildings must be architecturally finished on all four sides with the same materials, detailing and features.

All four facades use the same construction materials, though not in the same quantities. However, there is enough masonry on each façade to meet the intent of the architectural standards. The west elevation has the least amount of masonry (approximately 30.8%), but it faces the existing education building and gymnasium and will be modified with the Phase 3 expansion. To help break up the 2-story brick wall on the north elevation, the applicant has added cast stone lintels and sills to the windows, stone wainscoting, and cast stone quoins on the corner of the wall.

#### Landscaping and Screening (Exhibit D)

Landscaping and screening will be provided as shown on Sheets D-1 and D-2. The landscaping for the parking lots and buffer yards generally complies with the requirements of the Zoning Ordinance. Foundation plantings are proposed along the front façade.

Along the west property line is an existing line of trees. The applicant proposes to preserve these trees as shown on Sheet D-2. Some of the existing trees in the parking lot and buffer yards will also be retained.

Ground-mounted and roof-mounted equipment serving the property will be screened according to the Zoning Ordinance.

#### Signage (Exhibit E)

The applicant proposes one monument sign in front of the worship and education building with a maximum height of 12 feet, maximum width of 17.5 feet, and a maximum sign area of 128 square feet. The sign includes a 4-foot stone base, 4-foot brick sign panel and a 3-foot, 8-inch electronic message board as shown on Exhibit E. The applicant is also requesting wall plaque signs similar to those on the existing buildings to identify the buildings on the property. The church's existing freestanding signs along W. Broad Street will be removed.

Under the sign regulations, the church would be allowed to have two monument signs with a maximum height of 10 feet, maximum with of 10 feet and a maximum sign area of 50 square feet. The dimensions of the proposed sign are approximately the same as two standard monument signs combined together. The proposed sign is in scale with the size and in keeping with the appearance of the development.

#### Recommendation

The church is an established land use for this property. The expansion of church facilities is compatible with the neighborhood. With OP as the base zoning, the PD allows for future OP uses that may serve the church congregation or the neighborhood, such as a day care.

While the proposed elevations of the new building do not meet all of the OP requirements, they employ architectural features and materials on all four facades to mitigate for the articulation and masonry requirements.

The proposed sign plan eliminates multiple signs on the property and consolidates them into one larger sign. The sign is compatible and in scale with the church.

Staff recommends approval.

#### **Comments and Considerations**

The subject property is a vacant tract approximately 11.76 acres in size. The property is located west of the Country Meadows subdivision (zoned SF-6/12), north of Alpine

Industrial Park, east of the Union Pacific Railroad, and south of the last phase of the future Rockwood Addition (zoned PR). This property is at the western edge of the city limits.

The applicant is requesting to rezone the property from PR to PD for single-family residences. The applicant proposes 51 residential lots and 4 open spaces. The proposed development will be called Crestwood.

#### **Development Plan and Standards**

The proposed development will have 51 detached single-family residences with 45 lots having a minimum lot width of 50 feet and 6 lots having a width of 60 feet. The 60-foot lots have been noted on the Development Plan (Exhibit B). The subdivision will be developed in one phase.

In addition to the residential lots, the applicant proposes a 1.18 acre landscaped open space for a detention pond, a buffer on the north side of Cancun Drive behind Lots 1 and 3, Block 1, and a pedestrian/bike trail connection between Lots 8 and 10, Block 1 to provide trail access to the Rockwood Addition.

The bulk area standards for the single-family residential products are as follows:

	60' Lots	50' Lots
Min. Floor Area (sq. ft.)	2,000	1,800
Min. Lot Area (sq. ft.)	7,200	6,000
Min. Lot Width	60'	50'
Min. Lot Depth	100'	100'
Min. Front Setback	25'	25'
Min. Rear Setback	10'	10'
Min. Interior Side Yard	5'	5'
Min. Exterior Side Yard (adjacent to street)	15'	15'
Max. Lot Coverage	45%	45%
Max. Height	35'	35'

Corner lots must be at least 10 feet wider than the minimum lot width. The minimum lot frontage has been reduced from 45 feet to 34 feet for lots along eyebrows as indicated in Note 10 on Exhibit B.

Access to the new development will be from the existing street stubs for Cancun Drive and St. Giles Drive in the Country Meadows Addition. To provide better circulation and emergency access, the developer must also connect two sections of Griffin Lane to provide an access point from FM 1187 as specified in Note 12.

#### Architectural Regulations

To provide a variety of architectural options, the development standards listed on the Development Plan (Exhibit B) include the following:

• The exterior finish material on all elevations may be any combination of brick, wood, cementitious fiber board, stone, and stucco.

File Number: 21-4301

- The primary roof must have a roof pitch of 6:12.
- Dwellings with the same or substantially the same street elevation on the same street must be separated by at least three (3) lots on the same side of the street or opposite side of the street to create a moving block of six (6) lots that cannot have the same or substantially the same street elevation.
- All houses on a corner lot must have a side-entry garage.
- At least 21 of the houses must be constructed with a front porch. Six of the houses on a corner lot must have a wrap-around porch.
- All windows facing streets or required open space must have divided lights (panes) and be trimmed with a picture frame using brick, stone, or wood. The divided light patterns must vary through the community.

Other architectural requirements are included in Note 2 on Exhibit B. These standards are intended to allow a builder to construct homes with more architectural variety. No elevations were included in the PD as the architectural standards on Exhibit B represent a substantial departure from those in the Zoning Ordinance. For example, porches are required in the PD, but only encourage in the Zoning Ordinance. The developer has not yet built to these new PD standards.

#### Enhanced Entryway Plan

Although Crestwood will be connecting to the existing street in the neighboring subdivision, the applicant has provided a modified Landscaping and Enhanced Entryway Plan as Exhibit C-1. The entryway will include a decorative sign wall with a landscaping bed in front, decorative street lights and enhanced paving in the street. These features are shown on Exhibit C-2.

#### Fencing and Landscaping Plan

A proposed Fencing and Landscaping Plan has been provided as Exhibit C-2. This plan requires two trees to be planted on each residential lot (one in front and one in back). Tree plantings are also required around the detention pond.

The residential lots may have wood privacy fences except where a side or rear property line is adjacent to an open space. On these lots, the property line adjacent to open space will have a 6-foot ornamental metal fence. A row of shrubs will be planted behind Lots 1 and 3, Block 1, to help conceal the drainage easement behind these lots.

To screen the lots on Block 3 from view of the industrial park, an 8-foot masonry wall will be erected on Lot 24X, Block 1 as shown on Exhibit C-2.

#### Trail Plan

The applicant is accommodating a pedestrian/bike trail from the County Meadows Addition to the Rockwood Addition through this development. The trail consists of a 6-foot wide sidewalk from Cancun Drive along Street A to Lot 9X, Block 1. The trail is shown in gray on Exhibit C-2.

#### Recommendation

Based its location and the surrounding land uses, a small single-family residential

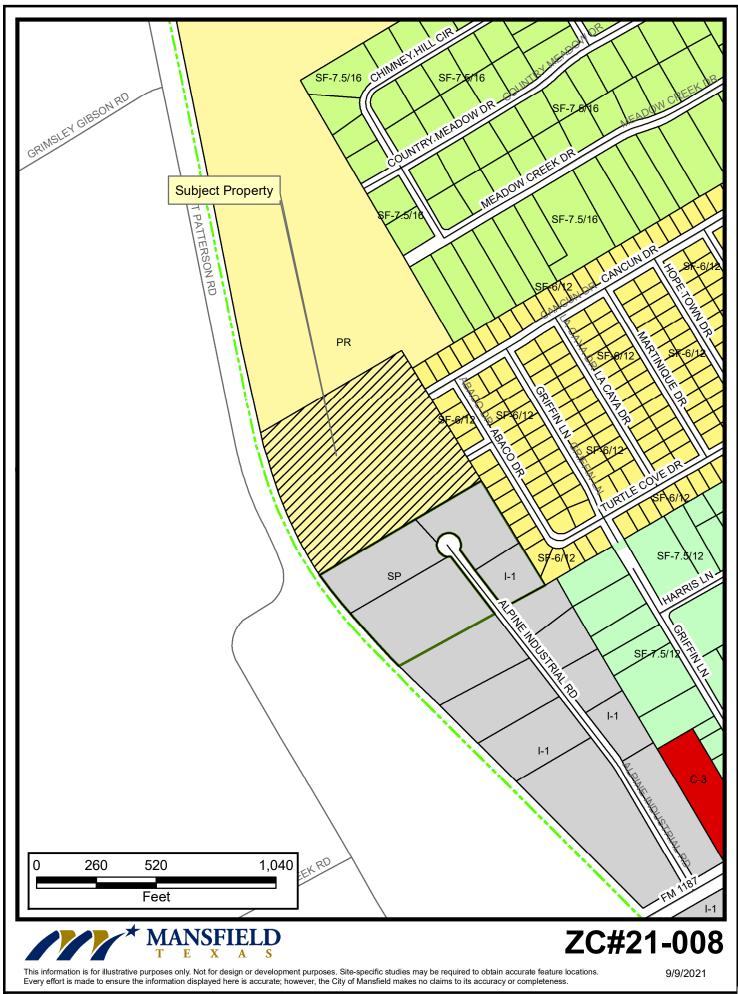

File Number: 21-4301

subdivision is suitable for the tract. With respect to the Country Meadows and Rockwood Additions, the proposed development is consistent with the existing feel and character of the area. The lot sizes are comparable to the 60-foot lots in Country Meadows, while the proposed development standards will allow the houses to have an architectural variety as good as or better than the Rockwood Addition.

Staff recommends approval.

#### STAFF REPORT

**File Number: 21-4293** 

Agenda Date: 9/20/2021 Version: 1 Status: Public Hearing

In Control: Planning and Zoning Commission File Type: Ordinance

#### Agenda Number:

#### Title

OA#21-0021: Public hearing to consider a zoning change from various districts to D, Downtown District and Amending the Mansfield Code of Ordinances by Amending Special Purpose District Regulations and Creating a New Section 155.071 "Form-Based Code Districts" and Section 155.072 "D, Downtown District". The amendments necessary also including Amending Certain Sections Necessary to Enable the D, Downtown District and Repealing C-4 Downtown District and All References Related Thereto.

#### **Description/History**

The D, Downtown District is a coherent and coordinated response to multiple economic development and urban planning efforts to make Historic Downtown Mansfield more attractive to investment and to restore the district and its immediate environs to its traditional role as the community center for business, commerce, and neighborhood life. The City of Mansfield efforts are captured in: the Design Guidelines for Downtown Mansfield (1991); the Downtown Design Plan (1995); the Historic Resource Survey (1998); the Mansfield Historic Preservation Plan (1999); the Discover Historic Mansfield Action Plan (2008); the Historic Mansfield Implementation Plan (2013); and the Mansfield Downtown Development Strategies (2020). In particular, the Mansfield Downtown Development Strategies recommended the adoption of a new zoning district as a key objective to fulfill the community's vision for a walkable, multi-generational, mixed-use, and prosperous downtown. Further, the City prioritized this common vision and collective effort of public and private actors by including it within the Fiscal Year 2020-2021 Goals and Objectives.

Towards that end, the creation of a new zoning district, the D, Downtown District, is intended to preserve the traditional development patterns on approximately 228.78 acres inclusive of and immediately surrounding Historic Downtown Mansfield. The D, Downtown District is a form-based code; and it is keyed to a regulating plan that encourages diversity in land use and disciplined by a set of flexible development standards.

The new district is form-based and establishes four distinct zones to guide infill and redevelopment proposals at a variety of scales: D-1, sub-urban zone which is intended to be primarily residential with limited commercial activity adjacent to higher intensity zones; D-2, urban transition zone which supports a mixed-use, but primarily residential urban fabric; D-3, urban center zone which is high-intensity mixed-use zone; and SD-1, Broad

Street Corridor which is primarily commercial and encourages the adaptive reuse of historic homes from residential to commercial use.

The four districts constituting the D, Downtown District, follow the principles of transect-based urbanism; an urban planning model that increases development intensity from the least urban to the most urban. As employed in the proposed text of the D, Downtown District, the intensity of development increases from the sub-urban edges (i.e., D-1 zones) towards the defined urban center along Main Street (i.e., D-3 zones). Special consideration has been provided to deliver an adaptive and innovative code that places higher importance on the form and function of the built environment (e.g., the aesthetic design and quality of buildings and public spaces), as opposed to use only. This allows for a district-wide block-by-block review of development, rather than a lot-by-lot focus found in Euclidean or conventional zoning that significantly increase the challenges for creating or preserving remarkable places like Historic Downtown Mansfield. Like conventional zoning ordinances, the code regulates building use, building setback, building height and parking requirements, but with an increased emphasis on the aesthetic design and quality of streetscapes, civic spaces, and buildings.

This D, Downtown District is created with the explicit intention of retaining and attracting residents and businesses to create a distinct environment that is mixed-use, visually harmonious, and walkable. Some of the key provisions of this district include the following:

- The elimination of minimum lot sizes and lot widths to promote variety in development.
- An increase in building height to encourage variety in architecture.
- A reduction in building setbacks to ensure buildings define streets and civic spaces.
- An improved flexibility in building use.
- The introduction of building frontages to determine building typology and building use.
- The introduction of passive space to increase pedestrian activity in areas encouraging commercial and mixed-use.
- The provision of architectural standards that are derived from traditional construction technique.
- The provision of warrants to expedite development review by allowing administrative approval of deviations from the code that are justified by their purpose and consistency with the vision for Historic Downtown Mansfield.

In sum, the primary purpose of this district is to enable and encourage increased private investment in the historic downtown and in its immediate environs. It is further the purpose of this district to build on the work protecting the historic and cultural heritage of the historic downtown for the inheritance of future generations. The following policies provide further clarification on the purpose of this district:

1. That mixed-use development should be enabled and encouraged as a pattern of development to increase the residential density and the intensity of activity within the historic downtown in support of viable and diverse locally-oriented businesses and cultural institutions.

- 2. That development within the historic downtown should be attractive to the past, the present, and the future generations, and allow them to participate in its economic growth.
- 3. That small-scale, incremental development should be promoted and encouraged alongside larger development.
- 4. That building regulations should equitably balance the rights of the individual and the interests of the community as a whole.
- 5. That building form individually and collectively defines and supports the public realm.
- 6. That building configuration should support walkability, safe streets, and safe public spaces, creating pedestrian friendly neighborhoods.
- 7. That building configuration should define streets and public spaces as rooms, and should vary by context and intensity in coordination with neighboring properties.
- 8. That the harmonious and orderly evolution of the historic downtown and its surrounding areas should be secured through regulating the form of buildings.

Schedule of Community Outreach and Meetings:

- August 9, 2021: Presented the first draft of the D, Downtown District to the City Council during Work Session and received their direction and guidance.

### A. PURPOSE.

The primary purpose of this district is to enable and encourage increased private investment in the historic downtown and in its immediate environs. It is further the purpose of this district to build on the work protecting the historic and cultural heritage of the historic downtown for the inheritance of future generations. The following policies provide further clarification on the purpose of this district:

- 1. That mixed-use development should be enabled and encouraged as a pattern of development to increase the residential density and the intensity of activity within the historic downtown in support of viable and diverse locally-oriented businesses and cultural institutions.
- 2. That development within the historic downtown should be attractive to the past, the present, and the future generations, and allow them to participate in its economic growth.
- 3. That small-scale, incremental development should be promoted and encouraged alongside larger development.
- 4. That building regulations should equitably balance the rights of the individual and the interests of the community as a whole.
- 5. That building form individually and collectively defines and supports the public realm.
- 6. That building configuration should support walkability, safe streets, and safe public spaces, creating pedestrian friendly neighborhoods.

- 7. That building configuration should define streets and public spaces as rooms, and should vary by context and intensity in coordination with neighboring properties.
- 8. That the harmonious and orderly evolution of the historic downtown and its surrounding areas should be secured through regulating the form of buildings.

### G. DESCRIPTION OF DOWNTOWN ZONES.

The D, Downtown District, is further divided into three distinct downtown zones and one special district (D-zones) using the rural-to-urban transect to provide neighborhood structure for the historic downtown and environs. The rural-to-

urban transect is a means for considering and organizing the human environment according to intensities ranging from the most rural condition to the most urban condition. The D-zones are primarily classified by the: (i) physical intensity of the built form, (ii) complexity of uses within the zone, and (iii) relationship between the natural and built environment. The D-zones are calibrated to reflect existing and future contexts and their descriptions shall be as follows:

- 1. **D-1, SUB-URBAN ZONE:** this zone consists of residential areas with some commercial and mixed-use activity adjacent to higher intensity zones. The character of this zone consists of detached single-family residential surrounded by lawns and landscaped yards with limited office. Pedestrians may be occasionally present, and trees are within the public right-of-way.
- 2. **D-2, URBAN TRANSITION ZONE:** this zone consists of a mixed-use, but a primarily residential urban fabric. The character of D-2 zones consists predominately of attached buildings accommodating office, restaurant, and retail mixed with row houses and small multi-family residential buildings. There is substantial pedestrian activity in this zone and trees and public lighting are within the public right-of-way.
- 3. **D-3, URBAN CENTER ZONE:** this zone consists of mixed-use of the greatest variety and the highest intensity. The character of this zone consists of attached buildings that form a continuous street wall and accommodate diverse entertainment, multi-family residential, office, restaurant, and retail. The D-3 zone has the highest pedestrian and

transit activities; and trees and public lighting are within the public right-of-way.

4. **SD-1, BROAD STREET CORRIDOR:** this special district is intended to direct the re-use of historic buildings and their lots along portions of Broad Street from residential to office, restaurant, and retail uses. This special district is further intended to incubate and nurture new and distinct businesses for the historic downtown and its immediate environs.
