The project includes the demolition of all existing structures, paving and vegetation at 651 Justice Lane. This complex was previously owned by Tarrant County and later purchased by the City. This clearing of the site is the first step in the process of developing a police & fire driving training pad and burn tower on this same property.

On October 6, 2020, eight (8) proposals were received and publicly opened. It was determined that Midwest Wrecking of Texas, Inc. best met the defined evaluation criteria of cost, reference/experience, delivery time and financial strength in order to provide the best value for the City of Mansfield. This was also the lowest bid received.

Demolition of the site is a necessary first step in the design and construction of a new driving training pad and burn tower for our public safety teams.
