Resolution - A Resolution of The City Council of The City of Mansfield, Texas, Authorizing the Purchase of the West 15 Acres out of Philip B. George, Abstract 299, Johnson County, Texas (2624 Chambers St.) and Authorizing the Execution of Any Documents Necessary to Implement this Resolution

Consider the Resolution authorizing the purchase of the west 15 acres for a second water treatment plant for the City of Mansfield.

Staff recommends approval of this Resolution

As the City continues to grow a location for a second water treatment plant is necessary to sustain the service necessary to full growth potential for the City of Mansfield as well as the wholesale water customers the City serves.

The City is constantly looking to the future needs of sustaining service levels for its citizens. In updating the water master plan the City has identified locations that would be ideal for a second water treatment plant. This land has been identified as being in a location that would allow the City to sustain continued service levels for our citizens as well as the wholesale water customers the City serves. It is best to try and purchase the land now so that the City can identify the location of a second water treatment plant in the planning stages.
