Resolution - A Proposed Resolution Awarding a One Year Renewable Contract to the Lowest and Best Bid for the Supply of Poly-Aluminum Chloride (PACL), for an Amount not to Exceed \$394.00 / Wet Ton (Utility Fund FY-2018, FY-2019 Operating Budget)

Resolution authorizing a one year renewable option contract for the supply of Poly-Aluminum Chloride (PACL).

City staff recommends approval of a resolution awarding the bid to the lowest and best bidder, Chemtrade for the amount of \$394.00 / wet ton.

The invitation to bid was advertised in the Fort Worth Star Telegram, posted on the City of Mansfield website, and bid packets were e-mailed to known suppliers, and companies that requested them.

Poly-Aluminum Chloride (PACL) is the primary coagulant used at the water treatment plant. Coagulants are used to clarify water and remove organic material that may contain viruses and bacteria.
