Resolution - A Resolution of the City Council of the City of Mansfield, Texas, Approving a Negotiated Settlement Between the Atmos Cities Steering Committee ("ACSC") and Atmos Energy Corp., Mid-Tex Division Regarding the Company's 2018 Rate Review Mechanism Filings

Consider approval of the attached resolution.

Staff recommends that council approve the attached resolution.

The City, along with 171 other Mid-Texas cities served by Atmos Energy Corporation, Mid-Tex Division ("Atmos Mid-Tex" or "Company"), is a member of the Atmos Cities Steering Committee ("ACSC"). In 2007, ACSC and Atmos Mid-Tex settled a rate application filed by the Company pursuant to Section 104.301 of the Texas Utilities Code for an interim rate adjustment commonly referred to as a GRIP filing (arising out of the Gas Reliability Infrastructure Program legislation). That settlement created a substitute rate review process, referred to as Rate Review Mechanism ("RRM"), as a substitute for future filings under the GRIP statute.

Since 2007, there have been several modifications to the original RRM Tariff. The most recent iteration of an RRM Tariff was reflected in an ordinance adopted by this council earlier this year. On or about April 1, 2018, the Company filed a rate request pursuant to the RRM Tariff adopted by ACSC members. The Company claimed that its cost-of-service in a test year ending December 31, 2017, entitled it to additional system-wide revenues of \$42.0 million. Application of the standards set forth in ACSC's RRM Tariff required Atmos to reduce its request to \$27.4 million. After review of the consultants' report, the Company offered to settle for a system-wide increase of \$25.9 million. Following further negotiations, ACSC's Executive Committee agreed to recommend a system-wide rate increase of \$24.9 million. That increase when allocated to ACSC members results in an increase of \$17.8 million. The Effective Date for new rates is October 1, 2018. The Legislature's GRIP process allowed gas utilities to receive annual rate increases associated with capital investments. The RRM process has proven to result in a more efficient and less costly (both from a consumer rate impact perspective and from a ratemaking perspective) than the GRIP process. Given Atmos Mid-Tex's claim that its historic cost of service should entitle it to recover \$42 million in additional system-wide revenues, the RRM settlement at \$24.9 million reflects savings of \$17.1 million. ACSC's consultants produced a report indicating that Atmos had justified increased revenues of at least \$21.7 million. Settlement at \$24.9 million is fair and reasonable. The ACSC Executive Committee consisting of city employees of 18 ACSC members urges all ACSC members to pass the Resolution before September 30, 2018. New rates become effective October 1, 2018.
