A. Simon (SP#19-002)

To consider the subject request

The Zoning Ordinance allows roof-mounted solar panel systems on a residence provided that the panels are not located on a front or side roof slope facing a public street. The City Council may approve an alternate location at one (1) meeting after holding a public hearing and written notice sent to owners of real property within 200 feet of the request.

The homeowner at 5 Altman Court is requesting that solar panels be allowed on the front slope of his roof facing the street. The applicant has provided details in his letter of request.
