HLC#22-013: Discussion on the 2021 - 2022 Annual Report of the Mansfield Historic Landmark Commission

One of the Commission's Preservation Goals is to promote the Commission's work by producing an annual report of the Commission's activities to educate the public on the Commission's role and the need for historic preservation.

In preparation of the end of the fiscal year in September, Staff is preparing a draft report to demonstrate the proposed format and appearance. Staff will be seeking guidance from the Commission on the format and content of the report at the next meeting.

The final draft of the annual report is attached. If approved by the Commission, the report will be presented to the City Council at their October 10, 2022 meeting.
