Resolution - A Resolution Authorizing Funding for the Purchase of a 30-inch Flow Control Valve for the 30-inch Lone Star Rd Water Line to Municipal Valve & Equipment Company through the Interlocal Purchasing System (TIPS) for an Amount Not to Exceed \$208,100.00 (Utility Fund)

Consider the resolution authorizing funds in the amount of Two Hundred Eight Thousand One Hundred Dollars and Zero Cents \$208,100.00 and approval of a contract with Municipal Valve & Equipment Company for the Purchase of a 30-inch Flow Control Valve for the 30-inch Lone Star Rd Water Line.

Staff recommends approval

A new 30-inch transmission water line is being installed along Lone Star Rd. This resolution (RE-3921-22) was approved by council on October 10, 2022.

The 30-inch flow control valve is needed to regulate the amount of water that flows through the water line. The flow control valve will be connected to the supervisory control and data acquisition system (SCADA) that is controlled from the Bud Ervin Water Treatment Plant. This will allow staff to control the correct amount of water needed on demand.
